

ANNUAL REPORT

2017-18

SHINE SA ACKNOWLEDGES THAT THE LAND
WE MEET, WORK AND LIVE ON IS THE
TRADITIONAL LANDS FOR THE KAURNA
PEOPLE AND WE RESPECT THEIR SPIRITUAL
RELATIONSHIP WITH THEIR COUNTRY.

WE ACKNOWLEDGE THE KAURNA PEOPLE AS THE
TRADITIONAL CUSTODIANS OF THE ADELAIDE
REGION AND THAT THEIR CULTURAL AND
HERITAGE BELIEFS ARE STILL AS IMPORTANT
TO THE LIVING KAURNA PEOPLE TODAY.

WE PAY RESPECT TO KAURNA ELDERS PAST,
PRESENT AND FUTURE, AND ALSO ACKNOWLEDGE
THE CULTURAL AUTHORITY OF ABORIGINAL
PEOPLE WHO WORK AND VISIT WITH US FROM
OTHER AREAS OF AUSTRALIA
THROUGHOUT THE YEAR.

CHAIR'S

REPORT

SHINE SA AND SOUTH AUSTRALIA CAN BE VERY PROUD OF OUR ABILITY TO PROVIDE QUALITY SEXUAL HEALTH SUPPORT

On behalf of the Board it gives me great pleasure to present the 2017-2018 Annual Report.

The SHINE SA Annual Report is a reflection of the work the organisation does for the benefit of the communities we serve including:

- family planning and STIs & blood borne viruses
- successful delivery on all contracts
- further building on our strategic vision in providing comprehensive sexual and reproductive health services to the community
- Hyde Street Practice
- international work
- leadership and education via conferences, research, education for schools through train the trainer (teachers) education programs
- workforce update programs
- specialised sexual health clinical and counselling services
- expert and community advisory panels

These achievements have occurred in a year of challenges for SHINE SA with funding cuts in Core Services Agreements, the end of some of the special grant programs, a highly competitive environment to win tenders, and an increase in electricity costs, all of which resulted in two restructures and reshaping of how to deliver the sexual health clinical and education services for the wellbeing of the South Australian community. This has had it challenges and SHINE SA has risen to the challenge by rethinking and developing

new methods for the delivery of programs, reduction in staff and tight monitoring of finances. SHINE SA and South Australia can be very proud of our ability to provide quality sexual health support both educationally and clinically to people in South Australia, including the marginalised and vulnerable. This is reflected in SHINE SA receiving ongoing QIC, Rainbow Tick accreditation as well as AGPAL accreditation in 2018.

However, the community needs to be mindful that there does come a point when ongoing reduction in public health programs such as sexual health programs does impact on the sexual health and wellbeing of people within the community. A well informed community means the potential for well informed decisions within personal values and a healthier population overall, resulting in a reduction in acute health care costs.

SHINE SA acknowledges our funding sources, partners and collaborators, particularly the Department for Health and Wellbeing and the Department for Education, for their continued support and recognition of the importance of both education and clinical services to the community.

The Board wishes to thank Jill Davidson, who has been the Chief Executive Officer at SHINE SA for the last five and a half years, for her leadership of the organisation and we wish her well in her new adventure and role as Chief Nursing Officer at Imperial Hospital in Bangladesh. The Board looks forward to working with Natasha Miliotis, to continue the great work of SHINE SA. Natasha comes to SHINE SA with 14 years of experience as the Chief Executive

Officer of Skylight Mental Health (formally MIFSA) and overall 24 years of experience in the community and health sector.

On behalf of the Board I would like to thank the executive management team, staff, Advisory Panels, and Board, Committees and Advisory Panel secretariat for their assistance and commitment to the organisation.

The Board continues to build a robust best governance approach and welcomes Rose Alwyn and Sageran Naidoo to the Board. Thank you to the Board for all their work and support over the last twelve months.

Heather Karmel FCPA FAICD
Chair, SHINE SA Board

CEO'S

REPORT

SHINE SA CONTINUES TO BE A SIGNIFICANT AGENCY IN PURSUING MEASURES TO END THE TRANSMISSION OF HIV

SHINE SA continues to deliver high quality services and to ensure that all elements of its Strategic Plan 2015-2020 are executed in accordance with the Annual Business Plan. The outcomes of our strategic achievements can be found in this Annual Report.

They are a testament to the commitment and hard work of the SHINE SA staff who work tirelessly to meet the community needs and the demands of the external environment. Operating under the guide of four strategic pillars – Sexual Health, Education, Sustainability and Quality – SHINE SA was the proud recipient of three accreditation achievement awards this year.

We are very proud that we were re-surveyed and subsequently successful in achieving QIC and Rainbow Tick accreditation. In addition, our GP clinic at Hyde Street Practice has achieved its first accreditation through Australian General Practice Accreditation Limited (AGPAL), which is a leading provider of accreditation and quality improvement services to general practices. We have also been working towards the National Standards for Mental Health Services and trust that success will come SHINE SA's way next year in this area.

SHINE SA continues to be a significant agency in pursuing measures to end the transmission of HIV. As the lead agency for the Point of Care testing for HIV in South Australia we have continued to offer this service, even though the Point of Care testing trial finished.

We are now hoping for funding to assist with this important work. Last year we were proud that advocacy by SHINE SA, sector partners and national peaks resulted in funding for a PrEPX-SA trial in partnership with Alfred Health in Victoria. In April, PrEP medication was approved by the Pharmaceutical Benefits Advisory Committee (PBAC) and is now available at a subsidised price, thus removing the barrier to this form of prevention of HIV. The GP practice at 57 Hyde Street continues to support clients with this preventative service.

We have performed well against performance targets. This year, 69% of our clients were under 30. We delivered 43 709 clinical services with 2999 drop-in services and 1017 counselling services from 7 sites and 1 outreach, workforce education to 1341 participants and distributed 35 305 resources. We continue to expand our primary school education services across borders and internationally. As a state service, over 60% of the programs are delivered to rural areas.

This will be my last Annual Report as I hand over to the new CEO, Natasha Miliotis in July. I would like to take this opportunity to wish Natasha well and to thank the dedicated executive and senior managers and all the staff for their support through a busy, difficult yet successful year. I also want to thank Heather Karmel for her experienced guidance as Chair of the Board and the volunteer Board Directors who work diligently for SHINE SA and supported me through this very busy period of service growth, fiscal challenge and corporate governance improvements.

ABOUT US

Our Vision

Sexual & relationship wellbeing for all

Our Purpose

To lead a comprehensive approach to sexual, reproductive and relationship health and wellbeing by providing quality education, clinical, counselling and information services to the community.

Our Values

Respect – we embrace difference and celebrate diversity, we welcome people who are intersex, gender diverse and of all sexualities.

Excellence – we strive for excellence in all we do.

Innovation – we think differently; we use new technologies; we are innovative and responsive.

Integrity – our decisions are transparent; our people are accountable; we are highly trustworthy; we respect confidentiality.

Social Justice – we are committed to accessibility and affordability; we advocate for those most in need.

Our Approach

Our approach has been developed over the years as an organisation that works in partnership with governments, communities, education facilities and community agencies to improve the sexual and reproductive health and wellbeing of South Australians.

SHINE SA's service and education approach is underpinned by:

- The Ottawa Charter (1986)
- The Jakarta Declaration (1997)
- The Melbourne Declaration (2013)
- The Cairo Declaration (1994)
- The Beijing Declaration (1995)

Our Communities - Who we serve

We prioritise our services, advocate for and provide education around communities with the least choice and greatest need:

- young people aged 30 years and under
- Aboriginal and Torres Strait Islander peoples
- people from culturally and linguistically diverse backgrounds
- gay, lesbian, bisexual, transgender and intersex people
- sex workers
- people with disabilities
- people living with HIV
- people from regional, rural and remote communities

EDUCATION AND TRAINING

Schools Education and Support

The Schools Education and Support team supported 130 schools through the Focus Schools Program. This equates to 96% of Department for Education schools with a secondary component. This year we welcomed Modbury High School to the program. All Focus Schools received offers of professional development, resources, curriculum and personnel support to allow them to deliver a comprehensive, whole of school approach in the area of Relationships and Sexual Health (R&SH) education.

A total of 800 secondary teachers attended courses. Seven 15-hour Teaching It Like It Is Secondary courses, aiming to increase the confidence and capacity of teachers to deliver comprehensive R&SH curriculum to their students, were offered with 94 participants. One 15-hour Teaching It Like It Is Aboriginal specific course was held with 6 participants. Before training 40% of participants indicated that they were confident or very confident to teach relationships and sexual health. This increased to 98% after they had completed the training. An 'excellent' rating was provided by 80% of the participants for the course, 88% for facilitators' skills and 82% for the materials provided.

700 staff participated in update sessions from 101 schools while an additional 62 participants attended one of the 5 dedicated 15-hour R&SH courses to support students with disabilities. Support for the primary sector has also increased with 10 courses offered with 174 participants attending.

Presentations to secondary students that highlighted SHINE SA's services were conducted on 27 occasions to over 800 students. These were often delivered at the end of a series of R&SH lessons reinforcing classroom learning and where the students can go for help and information in the future. The Schools Education and Support team also supported over 670 young people at 5 Student Expos and connected with over 1000 other students at Expos and Events including Generation Next, the Nunga Tag Carnival, RAA Street Smart and the Aboriginal Power Cup.

In 2017 the program received feedback from over 4000 students who had participated in the Focus Schools Program at their school. Students highly endorsed the program with 85% of students rating the course overall as good or excellent and 93% believing the course will be useful now or in the future.

THE FOCUS SCHOOLS PROGRAM CONTINUES TO HAVE STRONG UPTAKE WITH 96% OF DEPARTMENT OF EDUCATIONS SECONDARY SCHOOLS PARTICIPATING.

Primary School Education

Educators in schools are required to ensure they provide educational opportunities in line with the Australian Curriculum and in South Australia, the Keeping Safe Child Protection Curriculum (KS:CPC).

One of the key roles of the SHINE SA Schools Education and Support (SES) team is to empower educators to facilitate the delivery of comprehensive relationships and sexuality education in schools. SHINE SA has a long and successful history of comprehensive support for secondary schools, and since 2014 has been providing ongoing support to primary schools. This professional learning and resource provision helps educators working with primary aged children to meet their relationship and sexual health curriculum obligations as mandated in the Health and Physical Education curriculum. Within this context, health education offers experiential learning opportunities that are relevant, engaging, contemporary, and developmentally appropriate.

With a strong emphasis on respectful relationships the SHINE SA Teaching It Like It Is: Primary program recognises and respects the importance of family as a source of sexual health information, education and values, and advocates for effective communication between home and school. Program content specifically addresses:

- physical, social and emotional changes that occur during puberty and the significant role relationships and sexuality play in these changes

- development of knowledge, understanding and skills that help students to establish and manage respectful relationships (both online and face-to-face)
- development of positive practices in relation to student reproductive and sexual health
- importance of identity and the factors that influence and impact on this
- recognition of social attitudes connected to gender and power and associated expectations
- development of health literacy competencies and help seeking behaviours

During the 2017-18 financial year 174 school-based staff participated in ten 15-hour Teaching It Like It Is: Primary training courses. This represents a 58% increase in participant numbers from the previous year. Since the inception of the Years 5-7 program in 2014 SHINE SA has now engaged 189 separate schools, equating to 45% of DECD schools with a primary component, and trained 588 primary school staff.

The ongoing success and reputation of the primary program has continued to gain momentum as schools recognise and prioritise the importance of respectful relationships education. Feedback from course participants indicates that the training courses and associated program effectively equip educators to engage students in their learning and to deliver relationships and sexual health curriculum in accurate, accessible and meaningful ways.

- Relatable issuesprovided real scenarios and examples that can be used within lessons.
- I really liked how I was shown what activities I could use with my students and ways to adapt for different literacy levels.
- I really enjoyed the course....I felt valued and well supported.
- Thank you for a well put together course and making it fun. I am really eager to implement in my classroom.
- Presenters were excellent - funny, knowledgeable and professional.
- Thank you, this was the best PD I have undertaken in my 5 years of teaching.

FEEDBACK FROM EDUCATORS WHO HAVE PARTICIPATED IN WORKSHOPS

Health Promotion Events

SHINE SA continues to enthusiastically participate in health promotion events. This year, SHINE SA focused on three main campaigns and participated in several special events designed to raise awareness of sexual health and relationship related issues.

Health Promotion Campaigns:

University of South Australia (Uni SA) 'Let's Talk about Sex' campaign (September 2017)

This campaign targeted Uni SA students through their 'Let's talk about sex' information booklet and Verse Magazine Issue 18. The issue of Verse Magazine, titled 'SEX' was produced and included a 'Dear Doctor' Q & A section. <http://versemag.com.au/magazine/edition-18/interview-shine-sas-amy-moten/>

'Meat & Two Veg' – Pie Bag Distribution (February-April 2018)

The popular 'Meat & Two Veg' Pie Bag campaign saw SHINE SA messaging distributed widely across the Northern Suburbs. The campaign targeted young males and promoted sexual health and testing, directing customers to the SHINE SA phone number for appointments. A total of 25 000 re-branded and updated pie bags were circulated through Adelaide Mobile Catering food vans to 30–45 locations each working day between February and April 2018.

Adelaide Mobile Catering provide food to factories and workplaces and estimate 75% of customers are male and under 40 years old.

National Cervix Screening Program

Dr Amy Moten, SHINE SA Coordinator Medical Education served as the clinical spokesperson during a collaborative campaign with National Cervical Screening Program and SA Cervix Screening Program. This campaign focused on promotion of new cervical screening guidelines and rationale via print, radio and social media (video). SA Health Facebook videos featuring Amy exceeded a reach of over 230 000 views.

Other Health Promotion Events

In addition to the above campaigns, SHINE SA participated in the following health promotion events including:

- a Close the GAP information stall at Northern Health Network
- presentation and provision of resources to Anglicare homeless young men
- information stall at RAA Street Smart event (schools team)
- information stall, education and resources provided to Adelaide University Medical Student's Camp

- education resource materials/ content provided to Flinders University General Practice Student Network
- presentation and provision of health information materials to inmates of Adelaide Women's Prison (STIs, contraception, healthy relationships) in collaboration with Hepatitis SA
- education (including using art/ creative writing) session on sexual health/STIs with consultation for prison magazine development provided in collaboration with Hepatitis SA at Adelaide Women's Prison, Mobilong and Yatala Prisons
- resources provided on sexual health for a health promotion stall at Mobilong Prison
- provision of sexual health & STI information for BDSM community
- provision of sexual health & STI information to Flinders University Student Association Health & Human Rights Group
- information stall hosted with resources for 'Be a Better Human fair' held by Flinders University
- provision of sexual health & STI information to Aboriginal students of Tauondi College.
- participation in NAIDOC Week

Medical/Nursing & Midwifery Training

SHINE SA remains committed to high quality clinical education aimed at meeting the professional development needs of doctors, nurses and midwives.

Medical education has exceeded all expectations this year with 215 doctors participating in courses or other training. This is a 46% increase in doctor participants compared to last financial year. Courses run included the Family Planning Alliance of Australia (FPAA) National Certificate in Reproductive & Sexual Health and the Introductory Course in Reproductive & Sexual Health Workshop. The Cervical Screening Credentialling Program (CSCP) has been extended to doctors and this has attracted interest from international medical graduates.

As evidenced by the numbers, demand for doctor training has increased and most courses have been at full capacity.

Education for nurses and midwives has been impacted by a reduction in staffing hours but has maintained appeal with 191 nurses and/or midwives participating in various education and training events. Regular courses offered included the CSCP, Cervical Screening Preceptorship training and the Certificate in Sexual Health for Registered Nurses and Midwives. Several individualised training sessions and forums were also held.

Recent developments in courses include the total review and update of the CSCP in accordance with the new National Cervical Screening Guidelines. This revised course has attracted interest from interstate partners who are reviewing the structure of their own courses. Adelaide Primary Health Network has negotiated a scholarship arrangement and will be offering a minimum of four CSCP scholarships for doctors, nurses and midwives in the coming year. Implanon NXT training has also been reviewed and updated after MSD handed

training over to individual training organisations. Implanon NXT training for general practitioners has continued this year, while Implanon NXT for nurses/midwives has experienced a high level of interest and the reviewed course has commenced registrations for the coming financial year. IUD Insertion training was held for the first time and the waiting list remains full for this highly in demand training.

Clinical training continues with placements in clinic for course participants and IUD insertion training. Clinical placement with SHINE SA remains a popular option for participants in the CSCP, and placement within the participant's workplace under a SHINE SA approved preceptor is also a common choice. Clinical training for doctors was also well subscribed with over 75% of participants in the FPAA certificate course enrolling for clinical placement.

Clinical Education Forums for doctors, nurses, midwives and other health professionals have been revised with the first forum held in June being recorded on video for uploading and is aimed at extending professional development opportunities to rural and regional clinicians and ensuring wide promotion of contemporary recommendations in sexual health practice.

External clinical education sessions have also been held with increased requests from partner organisations. Two sessions on Heavy Menstrual Bleeding were held by SHINE SA educators and facilitated by sapmea (South Australian Postgraduate Medical Education Association). In addition an education session was conducted on behalf of the Northern Health Network on Menopause and Contraception.

Rural education has expanded with various sessions provided to doctors, nurses and midwives on STIs, cervical screening and

contraception. Sessions were held in Port Pirie, Victor Harbor, Mt Gambier, Naracoorte, Bordertown and Penola.

The online PEP module continues to be promoted and accessed by doctors, nurses and midwives in PEP distribution sites.

Additional activities of the Coordinator, Medical Education include:

- presenting a skills session on IUDs and co-authoring an abstract at the GP17 Conference
- presenting at the ASHM conference 2017 in Sydney
- presenting at the Women in General Practice Conference in Melbourne
- presenting at the ASHM Sexual Health Update Day in Adelaide
- featuring in a SHINE SA video for clinicians, raising awareness of chlamydia testing and management
- featuring in two SA Health videos promoting changes to the National Cervical Screening Guidelines
- featuring in a clip for the Adelady lifestyle programme Instagram account and playing guest quizmaster on Hit 107 FM promoting the National Cervical Screening Guidelines
- contributing comments to articles on Buzzfeed and the Sunday Mail
- answering questions on sex and sexual health for the special sex edition of Uni SA's Verse magazine

SHINE SA continues to be involved in the national agenda and curriculum through attendance at regular teleconferences and face to face meetings with the FPAA Medical Advisory Committee and the Royal Australian College of General Practitioners (RACGP) National Faculty of Specific Interests in Sexual Health.

“...SAFE SCHOOLS HAS HELPED ME SO MUCH AND OUR SCHOOL WOULD NEVER HAVE CREATED OUR UNISEX TOILETS WITHOUT YOU! SAFE SCHOOLS IS SO INCREDIBLY IMPORTANT TO ME AND MANY MORE LGBTIQ+ STUDENTS...”

SA SECONDARY SCHOOL STUDENT

Safe Schools Coalition SA

On the 11th of July 2017, SHINE SA and the South Australian Department for Education signed a three-year funding agreement until the 30th of June 2020 to secure the Safe Schools Anti-bullying Initiative (SSABI).

The total value of the agreement was \$619 605 (GST included) and came after the loss of Federal Government funding to the Safe Schools Coalition. Sadly, a change of government in March 2018 brought with it a new election commitment to defund the SSABI program. The SSABI ended on the 13 of July 2018, after a 30 day notice period.

The SSABI provided specialised training and professional development to school education staff across South Australia. The initiative supported the creation of inclusive environments and the reduction of homophobic and transphobic bullying.

The SSABI provided professional development for teachers during school holidays or throughout the year on-site, as requested by school principals.

In addition to professional development, the SSABI provided individualised support to schools requesting assistance with issues including:

- navigating the Department for Education’s policy and procedures on gender diversity
- providing guidance and assistance to develop support plans for individual transgender students
- strategies for supporting LGBTIQ student action groups.

The SSABI was aligned with the National Safe School Framework guiding principles.

Over the course of the year:

- 79 schools participated as members in the initiative
- 1003 people received training
- 122 contacts were made in response to schools seeking support for gender diverse students
- 24 contacts were made in response to schools seeking other supports.

As at the closure of the initiative there were 79 members

in total comprising:

- 50 secondary schools, of these 48 (96%) were government and 2 (4%) non-government
- 20 combined schools, of these 16 (80%) were government and 4 (20%) non-government
- 9 primary schools, of these 8 (89%) were government and 1 (11%) non-government.

Table 1: Safe Schools Anti-bullying Initiative membership as at closure, 13th July 2018

School Sector	School Type	Number of Schools
Government	Secondary	48
Government	Combined	16
Government	Primary schools	8
Non-government	Secondary	2
Non-government	Combined	4
Non-government	Primary	1
		79

“THE WORK YOU ARE DOING THROUGH THE SAFE SCHOOLS PROGRAM IS INVALUABLE AND I’M SURE IT IS LIFE-SAVING FOR MANY CHILDREN AND YOUNG PEOPLE. I WAS SO PROUD TO SEE SO MANY SA SCHOOLS A PART OF THE PROGRAM...”

SA SCHOOL TEACHER

Keeping Safe: Child Protection Curriculum

Since 2016, SHINE SA has been the Department for Education's approved training provider for the **Keeping Safe: Child Protection Curriculum** (KS:CPC) professional learning, delivered by the Schools Education and Support (SES) team. The KS:CPC is a mandated curriculum for all South Australian Department for Education pre-schools and schools, with all children and young people (from age 3 to Year 12) accessing the approved child protection curriculum each year. All staff delivering the curriculum must complete a full day face-to-face training.

The KS:CPC professional learning is also available to the following approved organisations: Catholic Education South Australia (CESA); Association of Independent Schools of South Australia (AISSA); Community Children's Centres SA (CCCSA); Goodstart Early Learning Centres SA; and South Australian tertiary institutions (Flinders University, University of Adelaide, University of South Australia, Tabor College).

The KS:CPC is a proactive curriculum designed to teach children and young people in an age appropriate way to recognise abuse and tell a trusted adult about it, understand what is appropriate and inappropriate touching, and understand ways of keeping themselves safe. The professional learning comprises of curriculum content, educators' responsibilities, teaching pedagogy and supporting resources.

Early in 2017 the KS:CPC documents and training program were reviewed and updated in response to the

National Plan to Reduce Violence Against Women and their Children 2010-2022 as well as feedback from educators. The curriculum was updated to strengthen child safety concepts and provide a more user-friendly structure. The second edition documents were released and published in July 2017.

From 1 July 2017 to 30 June 2018, the SES Team delivered 59 KS:CPC courses with 2024 participants, comprised of:

- 18 General courses
- 13 Site-based courses
- 4 Regional courses
- 11 Pre-service teacher courses
- 5 Interstate general courses and Train the Trainer (TtT) workshops
- 1 International general course and TtT workshop
- 1 Information session for Department for Education social workers

In June 2018, the supporting document for Aboriginal children and young people was completed, released and published. A regional KS:CPC training was held at the Umuwa Trade Training Centre on the APY Lands for 25 staff, representing eight schools. The participants' feedback was excellent and they indicated their appreciation for the presenters who had taught on the APY Lands and knew the context. There were a lot of comments in the feedback about the importance of making training available and accessible to Aboriginal Education Workers.

From the 59 courses, 1494 participants completed the course feedback form indicating their satisfaction of the overall course, facilitator's skills and course materials;

- **91%** of the respondents rated the **overall course** as good or excellent.
- **95%** of the respondents rated the **facilitator's skills** as good or excellent.
- **94%** of the respondents rated the **course materials** as good or excellent.

The ongoing professional relationships that the SES team has with SA schools and educators has been a great platform to promote the KS:CPC courses, as well as giving schools confidence in the quality of the training we provide. The communication between SHINE SA and the Department for Education continues to be excellent.

Disability Training

SHINE SA remains committed to sexual health information and support for people living with a disability.

This year has seen a revival of the External Reference Group (ERG) for the FRESH Disability focus course, with several new representatives of relevant industry groups participating. The ERG has met on two occasions to review course content and structure to ensure that it addresses industry and community needs for sexual health and relationship education in the disability sector. This has led to a new format for the 3-day FRESH course in 2019, consisting of three stand-alone days that can be taken independently. The FRESH Disability focus course was held twice in the past year, offering revised content and receiving overwhelmingly positive feedback from participants.

Following the successful introduction of the 2-day training format, during the 2017-18 financial year the Schools Education and Support (SES) team held five, 15-hour training courses, including one in Port Augusta and another in Mt Gambier. Participation in these professional learning experiences provides access to information, methodologies, shared expertise and resources, enabling staff to plan and facilitate for comprehensive relationships and sexual health curriculum programs for their students. In the past year, 101 school staff participated in Disability

Education training courses and 'update' workshops. This brings the total number of school based staff trained since 2014 to 412.

SHINE SA also negotiated tailored training in response to specific staff and client requirements. Service talks about SHINE SA services, activities focused on relationships and sexual health, and resources were provided to workers, carers, families and young people with a disability, both on site at SHINE SA and in the community or workplace. Specific responses included:

- Twelve workshops for MyTime, a nationally coordinated program facilitated by a dedicated group of local facilitators. This organisation provides peer support to parents and carers raising children and young people with disabilities and complex needs.
- A series of eight workshops tailored to EBL Disability Services - Enable Better Lifestyles, an NGO providing accommodation for people with intellectual disability.
- Four service talks for school groups delivered on site at SHINE SA, and two for community organisations operating day option educational based programs.
- Two parent workshops and over 50 individual responses to parents/carers, health professionals and/or educators requesting individualised programs for children and young

people focusing on positive, educative relationship and sexual health intervention and programs of ongoing support.

SHINE SA also ran two Rules About Sex: Getting Them Right workshops. This resource was developed to provide a flexible and adaptive resource with explicit imagery to discuss sex with people with a disability. The resource allows users to build unique stories and assessments to teach sexual health education. Participants learn how to use the resource and how they can apply it to the people they work with. Participants have been a mix of special education teachers and disability workers, resulting in great conversation and sharing of knowledge.

Relationships and sexuality education remains inaccessible, or is given a very low priority in the lives of many people living with a disability. Parents, educators, carers and workers have the unique opportunity to ensure this is not the case and by accessing SHINE SA services, can receive the relevant relationships and sexual health training and/or resource support that can ultimately enhance the lives of the people they love and/or care for.

International Work

SHINE SA is the approved training provider for the Department for Education’s *Keeping Safe: Child Protection Curriculum (KS:CPC)*.

On the 5th and 6th of October 2017 a two day *KS:CPC* training was implemented at the American International School of Bucharest (AISB) by Helen Rawnsley (SHINE SA) and Linda Woolcock (Department for Education: Project Officer, Child Protection Curriculum and Learner Wellbeing). Staff members from three schools attended the training including Kyiv International School Ukraine (KIS), Pechersk School International Ukraine (PSI) and the American International School of Bucharest (AISB).

Day One – Thursday 5 October 2017

The first day of training consisted of the *KS:CPC* Educator’s Course. This involved 23 participants, including 19 staff members from AISB, 2 staff members from PSI and 2 staff members from KIS. Participants included a Principal and Vice Principal, teachers, counsellors and year level leaders.

It was a fast paced and inspirational day with plenty of discussion, videos, activities and energisers to keep participants engaged and focused. Participants asked a lot of clarifying questions and made positive comments on the comprehensive resources and accessibility of these resources through the online portal.

Day Two – Friday 6 October 2017

The second day of training consisted of the *KS:CPC* Train-the-trainer course. This course had 19 participants all of whom had completed the day 1 training. This consisted of 15 staff from AISB, 2 staff members from PSI and 2 staff members from KIS. This was day was more relaxed and provided time for questions, discussions, planning and some informal interactions, for example, the Principal of KIS attempted the school slide.

For Helen and Linda facilitating the *KS:CPC* training in Bucharest was an amazing experience. It was wonderful to meet, listen to and learn from a passionate group of teachers whom travel the world with their families working in International schools.

From this success, the Quality Schools International organisation in Ljubljana, Slovenia, have entered into an agreement with the Department for Education to access the *KS:CPC* and the associated professional learning. This training will occur in October 2018. The increased interest in the *KS:CPC* and its associated professional learning program internationally is a credit to South Australia and the Department for Education. SHINE SA’s Schools Education and Support Team look forward to continuing to facilitate courses internationally in 2018.

Social Media

SHINE SA currently has a presence on three social media channels: Facebook, LinkedIn and YouTube.

Facebook is where we get our highest engagement rate on social media, and is where most of our efforts are currently placed.

Content usually relates to sexual and relationship health, especially of our communities of interest, as well as our services, and other events and services in the sector. Occasionally we share emergency community information (e.g. await and alerts).

We know that teenagers are generally not on Facebook, and when they are they are not liking sexual health pages or posts. So rather than try to use this platform to reach that cohort directly, we rely on others to be able to pass our information on to them. Our main demographic reached is women aged 25–34 years (almost a third of our followers). We know this cohort contains people who are connected to teenagers through work and family, and we rely on them being aware of our services and information and being able to pass it on.

During the year our follower count rose from 2260 to 2870 (an increase of 610 followers). Many of our followers are workers in health and community services, as well as a sizeable portion of followers who are part of the LGBTIQ communities. We also have followers from all our communities of interest, including people with a disability and Aboriginal people.

SOCIAL MEDIA AT SHINE SA

	
FACEBOOK PAGE LIKES INCREASED BY 23%	SASHA SITE HAD 186 076 VISITS
77% OF OUR FANS WERE WOMEN AND 19% WERE MEN	378 PEOPLE CHOSE TO SUBSCRIBE TO UPDATES VIA EMAIL
FACEBOOK PAGE FOLLOWS INCREASED BY 27%	MOST OF OUR SITE VISITORS CAME DIRECTLY VIA SASHA URL
MOST TOP PERFORMING POST WAS "CATS DON'T USE CONDOMS, FREE EXTERNAL CONDOMS AT SHINE"	MOST POPULAR POST WAS SHINE SA MEDIA RELEASE "RESPONSE TO ABC REPORT ON LONG ACTING REVERSIBLE CONTRACEPTION [LARCS]"

This year our Facebook audience has responded well to the personal approach in promoting SHINE SA’s services, with individual staff profiles featuring and being very well received. It is our passionate, knowledgeable and dedicated staff that really cement SHINE SA’s reputation as a trusted organisation among the community, and this has been reflected in our Facebook posts. We have also developed some healthy reciprocal relationships with other Facebook pages. Of our top 5 posts for the year, the most popular post was on cats and condoms, reaching over 13 000 people! The other 4 most popular were all on LGBTIQ issues.

Our YouTube channel had nine new videos created and uploaded this year, including clips on hepatitis C, chlamydia, hepatitis A, and gonorrhoea. A total of 9571 minutes of footage were watched on our channel, and our videos were viewed 7002 times, and shared 75 times. Our viewers are located mainly in Australia and the US.

We keep a modest profile on LinkedIn, using it mainly for recruitment and promoting our courses and other educational activities. Our most successful posts in the last year include the video *Why Inclusion and Diversity Matter* (long edit), and the recruitment ad for team leader of our Schools Education and Support team. Both of these reached over 400 people. Most of our page visitors worked in the Business Development, Sales, and Community and Social Service fields, predominantly in Adelaide. We have 264 followers.

CLINICAL AND COUNSELLING SERVICES

Clinical Services

SHINE SA's Clinical Services prioritise clients who are at the highest risk of poor sexual health outcomes. There are currently four clinical sites (Woodville, Noarlunga, Davoren Park and Hyde Street in the CBD) offering SHINE SA clinics and a General Practice. The services are provided by Doctor and RN/M led clinics supported by medical administration and clinic support staff. In 2017, the Gilles Plains clinic that has been operating for 10 years was closed.

In SHINE SA clinics, the Walk-in and Wait model is very popular for STI screening for clients under 30 years. A significant focus at all sites is on STI treatment and management, implementation of the national Cervix Screening Guidelines, and contraception, with a high demand for long-acting reversible contraception including IUD services. Ongoing professional development for staff has included a focus on the services for trans and gender diverse clients to ensure gender-safe practices.

The Sexual Healthline is a well used phone service offered each weekday morning. Common enquiries from both community members and professionals include concerns about exposure to BBVs and STIs, pregnancy options, results provision, contraception and access to PrEP (medication to prevent the transmission of HIV).

The Hyde Street Practice achieved accreditation with Australian General Practice Accreditation Limited (AGPAL) in May 2018. This is primarily a General Practice with GPs, a specialist Sexual Health Physician and SHINE SA sexual health clinics. It provides a mixed-model of sexual and reproductive health care. The range of services is expanding and provides a wrap-around service including chronic disease management such as care planning for clients with HIV, hepatitis or with mental health care plans. Following a successful demonstration project evaluated by the Burnett Institute, the Rapido clinic, a unique peer-led HIV point of care testing, is also conducted weekly at this practice.

Other clinical services include three SA Prison Health Service sites and a pilot project at the Reynella Family Care GP Practice since March 2018, where we have implemented a nurse-led clinic focusing on cervical screening, sexual and reproductive health issues in partnership with a GP.

The clinical team has been able to provide some important responses. At the beginning of 2018, SA Health funded a Hepatitis A outreach program in response to a recent outbreak of the virus in South Australia. Free vaccination was provided to 145 gay and MSM clients from a sex-on-premises Venue. For this same population, free Human Papilloma Virus (HPV) immunisation has been made available to eligible clients. A funding opportunity through SA Cervix Screening facilitated partnerships with the Sex Industry Network and Trans Health SA to provide cervical screening and opportunistic STI testing for targeted clients. Both of these initiatives were highly successful and assisted in the screening of previously under-screened groups in a safe and inclusive environment.

Get Checked Now Website

From 1 July 2017 to 30 June 2018, 196 STI tests progressed to SA Pathology that originated from www.getcheckednow.com.au. This shows a 30.52% conversion rate of the data entry progressing through to testing. These tests then yielded a 9.74% positivity rate.

However, www.getcheckednow.com.au ceased operation from 22 May due to concerns regarding data privacy and SHINE SA is investigating this issue with a view to upgrading the website.

During the period up to 22 May, of all the *getcheckednow* participants 196 proceeded to testing (13% higher than the full period last year). This is

29 more participants proceeding to testing than the full period last year.

The positivity rate of 9.74% shows an increase of 0.4% from the full period last year. The YTD data collected from pathology forms shows 60% identify as female, and 40% identify as male, with 9.7% of people having rural postcodes.

Counselling Services

The Sexual Health Counselling (SHC) team continues to provide affordable sexual health counselling, information and training to the community, including to workers.

SHC services were provided at Woodville, Noarlunga and Davoren Park and via phone. The top sexual health issues presenting continue to be sexual relationship issues including work with couples, gender identity/gender transition, Genito Pelvic Pain – Penetration Disorder (GPP-PD or Vaginismus), and the effects of sexual violence such as sexual assault, harassment and child sexual abuse. Less frequent (but still in the top 10 presentations) are sexuality issues, safe sex or sexual practices, desire discrepancy and erectile difficulties.

Disability work continues to be an important part of the service provided by SHINE SA. Each site can offer a service with either a doctor, nurse or a member of the counselling team. The SHC team also offers one-to-one education and counselling work. Disability requests are usually for sexual health information or education on topics such as how to have sex safely, sexual pleasure and how to prepare for a date. Much of this information revolves around having healthy relationships, rights and rules about sex.

Training and skill development

Counsellors provide expertise and build capacity of other professionals via training sessions delivered in SHINE SA courses, and also offer Youth Mental Health First Aid training to professionals.

It is also important that SHC skills and knowledge be updated and extended continuously. Some areas of professional development our counsellors continue to pursue are working effectively with trans and gender diverse clients and supporting the sexual health needs of clients with disabilities.

Liaising with other services in different regions continues to be important for the SHC team. For example, this year it has been with organisations such as Mind Recovery

College and networks such as the Playford Youth Network. The team has seen ongoing development in strengthening communication, relationship building and resource sharing between neighbouring services.

Overview of Counselling Services

- 1017 Contacts (Appointments) with 302 Unique Clients

There is a continued (yearly) trend of an increase of clients attending from LGBTIQ+ communities (33%) and people with disabilities (72%). There was a 5% increase in under 30s and a 13% increase in total number of counselling contacts from the same time last year.

I HAVE NOTHING BUT POSITIVE EXPERIENCES DEALING WITH THE COUNSELLOR AND OTHER STAFF MEMBERS AT THE NOARLUNGA SHINE SA CLINIC. I HAVE ALWAYS FELT SAFE AND COMFORTABLE SHARING WHAT HAS BEEN ON MY MIND KNOWING THAT HOWEVER I AM FEELING I WILL HAVE THEIR SUPPORT. THE MEETINGS HAVE ALLOWED ME TO BETTER UNDERSTAND MYSELF AND HAVE PROVIDED ME WITH SEVERAL PATHS I CAN TAKE TO BETTER MY LIFE AND GENERAL WELLBEING. HOWEVER ABOVE ALL ELSE THE CLINIC PROVIDES A SAFE SPACE FOR ME TO TALK OPENLY TO SOMEONE WHO TRULY CARES AND LISTENS.

SHINE SA CLIENT

OUR WORK WITH...

LESBIAN, GAY, BISEXUAL, TRANSGENDER, INTERSEX AND QUEER PEOPLE

LGBTI Workforce Development

This year has seen an increase in interest and demand for training in gender diversity and inclusivity. The Foundations of LGBTI Inclusion Training was undertaken on 10 occasions, with 9 of these in response to tailored training requests held within the workplace.

As a result, 163 people received this valuable training over the past 12 months. Participant feedback has been overwhelmingly positive with many participants admitting they found the training challenging. A majority of participants stated a desire for more knowledge in this area.

Five community and government organisations committed to and completed the HOW2 Create LGBTI Inclusive Services program this year. This comprehensive program runs over four sessions spaced six to eight weeks apart and is based on a set of six national standards developed by Gay and Lesbian Health Victoria (GLHV), in conjunction with QIP (Quality, Innovation & Performance), known as Rainbow Tick Accreditation. SHINE SA was the first Rainbow Tick Accredited organisation in South Australia and is honoured to have won the state licence to deliver this program. With

this licence SHINE SA is able to support other organisations achieve the same accreditation.

In the later stages of the year, SHINE SA negotiated a subsidised agreement with the Department of Human Services to offer LGBTI training to youth-focused organisations. This will see SHINE SA deliver subsidised places in the HOW2 Create LGBTI Inclusive Services program and sponsored training in Foundations of LGBTI Inclusion Training in the coming 18 months. Rural organisations should benefit the most from this subsidy agreement.

Gender Wellbeing Service

SHINE SA's Gender Wellbeing Service is a free service and safe space for people who are questioning their gender or who identify as Trans or Gender Diverse, as well as their families, friends and other support people. The service offers free peer support, case management and counselling services to Trans and Gender Diverse people and is staffed by a Peer Support Worker, Mental Health Social Worker and a team of volunteers.

The service is funded by the Adelaide Primary Health Network and continues to be the only funded program in South Australia that specifically supports the mental health of Trans and Gender Diverse communities.

The Gender Wellbeing Service has recently changed its name from the Trans Wellbeing Service to provide a broader, more inclusive reflection of the range of gender diverse communities and attract new referrals into the service. Since this change, we have seen more referrals to the service from young people and people who identify as non-binary.

This year, the Gender Wellbeing Service team attended the Health in Difference Conference in Sydney, Australia's premier conference on the health and wellbeing of lesbian, gay, bisexual, trans, intersex, queer and sexuality, gender, and bodily diverse people and community. This was a great opportunity for our team to come together with community members, community organisations, health practitioners, researchers,

academics, policy makers, advocates, and others committed to improving the mental health, physical and emotional wellbeing of LGBTI people.

To continue to improve the health and wellbeing of Trans and Gender Diverse people, SHINE SA has recently established the Trans and Gender Diverse Multidisciplinary Working Group. Members of this group include our Mental Health Clinician and Peer Support Worker, Sexual Health Counsellor, Clinical Psychologist, Sexual Health Physician and Clinical Services Manager. This working group is a mechanism for discussing clinical cases and broader issues in relation to best practice when working with Trans and Gender Diverse people.

SAMESH

SAMESH (South Australian Mobilisation + Empowerment for Sexual Health), a partnership program between SHINE SA and Thorne Harbour Health (formerly the Victorian AIDS Council) is now in its third year. The SA Health-funded program continues to deliver a range of HIV prevention and support services especially for gay men and men who have sex with men as it increases its profile among the state's LGBTIQ communities.

Among the many activities this year, SAMESH:

- hosted 4 community forums on diverse topics from MyHealth Record to ethnic diversity within Adelaide's LGBTIQ community
- supported 15 diverse LGBTIQ community groups, from a volleyball team to a multi-denominational Christian group to supporters of an AFL team
- strengthened partnerships with Positive Life South Australia, Centacare, and Hepatitis SA to improve the health and wellbeing of people living with HIV and/or viral hepatitis
- reviewed the Drama Down Under, the biggest social marketing campaign of its type in SA – findings from the review suggest that SAMESH is a trusted source for information about HIV and sexual health
- continued Rapido, SA's only rapid HIV test – located at 57 Hyde Street, Adelaide
- supported the Feast Festival, Adelaide's premier LGBTIQ community arts festival
- hosted 11 Positive Lounge Gatherings to provide people living with HIV opportunities to network and communicate to SAMESH and the sector about their issues
- increased promotion of Pre Exposure Prophylaxis (PrEP) among gay and other homosexually active men to coincide with PrEP's listing on the PBS
- provided counselling support and facilitated groups for young gay men and people newly diagnosed with HIV
- scaled up engagement with local universities to improve the sexual health of students
- celebrated and commemorated World AIDS Day, International AIDS Memorial Day, IDAHOBIT (International Day Against Homophobia, Biphobia and Transphobia) and the National Day for Women Living with HIV
- supported South Australians with HIV to participate in leadership training programs and other support services

- collaborated with SA Health during the Hepatitis B outbreak in late 2017
- developed tailored training programs on HIV-related issues for workers and volunteers
- participated in recruitment of men who use methamphetamines for the large Crystal, Sex and Pleasure Study in collaboration with the Centre for Social Research in Health (UNSW)

In addition to the many projects SAMESH implements, the program has commenced an evaluation of its very popular volunteer program, a rebuild of its website and a redesigned newsletter. The dedicated staff together with over 160 community volunteers ensure this unique program continues to work with and for the community.

CULTURALLY AND LINGUISTICALLY DIVERSE COMMUNITY

With the loss of our Culturally and Linguistically Diverse (CALD) workforce educator, SHINE SA has moved quickly to form a partnership with PEACE (Personal Education And Community Empowerment) Multicultural Services to ensure CALD communities will continue to receive effective and culturally appropriate sexual health information and education. Enquiries for sexual health education for CALD communities has been referred to PEACE, while PEACE will consult with SHINE SA to ensure accuracy of content in sexual health projects.

From a clinical services perspective, SHINE SA is committed to caring for people from CALD groups. SHINE SA continues to offer an interpreter as part of our clinical services.

This year SHINE SA has continued to work with the African Women's Federation providing information about healthy relationships as part of a program run by Thebarton Senior College. Our involvement with this program has followed over several years and is popular with participants.

REGIONAL, RURAL AND REMOTE COMMUNITIES

Schools Education and Support

SHINE SA remains mindful of minimising disadvantage for schools from rural, remote and regional areas. All South Australian Department for Education schools with a secondary component have been invited to join the Focus Schools Program with the offer of continuous support being the same for all schools, regardless of location.

Each Schools Coordinator from the Schools Education and Support (SES) team was responsible for an allocation of Focus Schools grouped according to geographical clusters. It is the aim of the SES team to offer at least one face-to-face meeting and professional learning update each year. Having a number of schools in the same 'cluster' allows the Schools Coordinators to work efficiently and maximise their road trips to visit as many schools as possible.

Of the 130 schools involved with the Focus Schools Program, 79 (or 61%) are outside of the metropolitan area. During this reporting period, 66 updates or visits were conducted to schools outside the metropolitan

area. In addition to faculty updates, Teaching It Like It Is Primary, Secondary and Disability courses were also offered in rural areas and all schools in the region were invited to attend. Courses were run in Port Augusta, Mount Gambier and Murray Bridge.

SHINE SA's presence within regional areas has also increased due to the SES team's facilitation of the Department for Education's *Keeping Safe: Child Protection Curriculum* (KS:CPC) professional learning. Five courses have been run during this period in the following areas: Kangaroo Island, Whyalla, Port Lincoln, Coober Pedy and for the first time, at Umuwa on the Anangu Pitjantjatjara Yankunytjatjara (APY) Lands.

The inaugural APY Lands KS:CPC professional learning held in Umuwa was a highlight in this reporting period. A group of 25, mostly teachers, two permanent relief teachers and one principal attended the training held at the Umuwa Trade Training Centre, representing eight schools. Some

adaptations were made to the general training program and the associated PowerPoint by including video resources that were more appropriate for Aboriginal children and young people. Reference was also made to other documents useful for the APY Lands schools and their context such as the *Keeping Them Safe Anangu Child Protection Curriculum* documents and *Malpa Ngurkantankuntja*, a resource developed for Anangu education workers and teachers who work on the APY Lands. The participants' feedback was excellent and they indicated their appreciation for the presenters who had taught on the Lands and knew the context. They also appreciated the adaptations that were made to make it more relevant for their context. There were a lot of comments in the feedback about the importance of making training available and accessible to Aboriginal Education Workers.

ABORIGINAL AND

TORRES STRAIT ISLANDER PEOPLES

Yarning On

This year we were pleased to finalise and publish online the SHINE SA Reconciliation Action Plan as well as re-establish the Aboriginal Staff Network. We have greatly missed having an Aboriginal specific program since the closure of the Close the Gap Program during late 2016-2017.

Despite this, SHINE SA has endeavoured to service Aboriginal and Torres Strait Islander peoples to our greatest capacity. We do this through workforce education courses, the provision of teacher support for schools with high numbers of Aboriginal students, Aboriginal Health Workers and the Department of Child Protection who care for children under guardianship of the Minister (where there is an overrepresentation of Aboriginal children and young people). In addition, we are pleased to continue our clinical work in South Australian prisons, a setting where Aboriginal people are disproportionately represented.

During 2017-2018 we continued to support staff to attend the NAIDOC March.

WE ARE PLEASED TO
CONTINUE OUR CLINICAL
WORK IN SOUTH
AUSTRALIAN PRISONS,
A SETTING WHERE
ABORIGINAL PEOPLE ARE
DISPROPORTIONATELY
REPRESENTED.

“EVERYONE IS DIFFERENT AND YOU SHOULD RESPECT THAT.”

SHINE SA

Marriage Equality Counselling Service

The Marriage Equality Counselling Service (MECS) was funded by SA Health and set up in October 2017 as a short-term service in response to the Australian Marriage Law Postal Survey to provide access to phone, face-to-face, online and Skype counselling to members of the LGBTIQ community who may have been experiencing hardship due to the impact of the Postal Survey.

The service was staffed by a group of experienced and professional peer counsellors who provided support over the phone, online and face-to-face. Sixty-two client contacts were recorded in the five months of the service (October 2017 to March 2018). Most of the issues discussed were around anxiety, social isolation, ageing, grief and loss and sexuality. While there was little direct reference to the Marriage Law Postal Survey raised in the client contacts, this does not indicate that it was not having an effect on the callers. The concept of indirect or cumulative stress was discussed and conveyed by members of the LGBTIQ community focus groups that were run by the project, and there was definitely an

impact on the community of the sustained discussion of the Postal Survey and related issues.

Given the anecdotal evidence about the negative effects of the Marriage Law Postal Survey, the MECS team formulated an online survey which was widely circulated through community networks. The survey asked about the impacts of the Marriage Law Postal Survey on the individual and community, the supports sought during the period of the Postal Survey and if the respondent was aware of MECS.

The survey garnered 230 responses overall and found that 74% of respondents had experienced negative impacts as a result of the Postal Survey, and 23% of those rated those impacts as severe.

All of the responses around the impacts of the Postal Survey were collated and submitted to *The Senate Standing Committee on Finance and Public Administration References Committee's Inquiry into the Arrangements for the Marriage Postal Survey*.

The submission did not edit any of the responses or draw any conclusions about what was stated. The process of the Postal Survey impacted most on those who were least heard, the LGBTIQ community, and this submission was a small way to redress some of those impacts.

RESEARCH

Research in the organisation is overseen by the Research Advisory Panel, composed of the external membership of experienced researchers and chaired by the Director of Research and Counselling Services. In the past year, governance activities of the panel have included the completion of a research policy and suite of procedures and templates to guide internal and external research at SHINE SA.

Throughout the year, the organisation has been involved in a range of research activities.

Our recently completed projects include:

- *Engaging Young People in Sexuality Education (EYPSE)*, 2013–2017: This has been a collaboration with the University of South Australia and Deakin University. An outcome of this project is a resource developed for use in the Focus Schools Program – *Our Voices. Student designed activities for sexuality and relationships education*.
- *PrEPX-SA clinical trial*: This has involved clinicians at the Hyde Street Practice and was SHINE SA's first involvement in a clinical trial. PrEP (or pre-exposure prophylaxis to prevent HIV transmission) is now available on the PBS but the cohort will be followed in a longitudinal study until 2022.

Our current research projects span programs and include:

- *Stimulants, pleasure and sex between men* with UNSW Centre for Social Research in Health, NHMRC funded project, 2017–2022. SHINE SA is involved in the SA recruitment, data collection materials, data analysis and knowledge translation and membership of the Reference Group.

- *RISE Study – developing and implementing systems to optimise treatment, care and support among people diagnosed with HIV* with UNSW Centre for Social Research in Health, NHMRC funded project, 2018–2022. SAMESH will provide information to assess the role of formal and informal peer support to access care and treatment for HIV; and enhance collaborative work across jurisdictions by sharing experiences and information to strengthen the partnership approach.
- *Reducing health disparities for culturally and linguistically diverse people* with Curtin University, ARC Linkage Project 2017–2021. This is a national project in 5 jurisdictions in which SHINE SA is involved in the recruitment of participants and involvement in conducting focus groups and membership of the Partnership Group.

In the past year, SHINE SA staff presented 13 oral papers and one poster at conferences. There was also one peer-reviewed publication and an invited blog piece. We also promote recruitment of participants for a range of external research that has synergies with our work. A number of other research opportunities will commence in 2018 through important established collaborations.

SAFETY AND QUALITY

Quality Systems and Continuous Improvement

Accreditation

SHINE SA's 3-year accreditations for the Quality Improvement Council (QIC) *Health and Community Service Standards* and *GLHV's Rainbow Tick Standards* fell due in March 2018. Quality Innovation and Performance (QIP) were the assessment body. From the accreditation survey, SHINE SA was awarded 4 'Exceeded' ratings in the QIC standards and 2 'Exceeded' ratings in the Rainbow Tick standards and all other criteria were met.

In addition to the organisation-wide QIC and Rainbow Tick accreditations, the Hyde Street Practice was surveyed against the RACGP Standards for General Practices. One minor corrective

action arose from the survey and the accreditation was awarded in April 2018.

SHINE SA is working towards accreditation of the Gender Wellbeing Service against the National Standards for Mental Health Services, and this accreditation is expected in late 2018.

Internal audit programs

Across 2018, the LGBTIQ+ staff network conducted audits of SHINE SA services against the Rainbow Tick standards. The achievement of the 'Exceeded' ratings and the overall positive accreditation results has been attributed to this ongoing audit process.

Quality Committee

The Quality Committee continues to embed quality improvement into SHINE SA's services and programs.

During the 2017–18 financial year approximately 43 quality improvement activities were raised and covered the majority of programs and services.

Document Management

A policy and procedure review program was established with the aim of rationalising the count of documents, improving accessibility of documents, and ensuring current practices are reflected. The ongoing program is based on a 3-year review cycle and has covered more than one-third of the existing documents in the first year.

Work Health and Safety

The Incident Management System continues to be the central repository for all SHINE SA incidents, including WHS-related incidents. During 2017–18 there were 7 WHS-related incidents raised. Other than 2 incidents which resulted in minor cuts no significant injuries were recorded.

The WHS committee met 5 times through the year. The committee maintained representation from all SHINE SA divisions and sites and was effective in reviewing incidents and WHS-related performance indicators.

WHS audits were conducted as per the schedule. Any identified non-conformances were raised, submitted to the WHS Committee, and addressed.

Training on manual handling topics has previously been provided to staff via an online course on the SafeWork SA website. SHINE SA has developed its own internal training course covering manual tasks. This course expands on the SafeWork SA course and is tailored toward the kinds of manual tasks that SHINE SA employees may face.

Risk Management

SHINE SA reviews risks annually to ensure that the controls remain effective and that no new risk causes exist. All SHINE SA risks were reviewed during the 2017–18 financial year. Risk reports were submitted to the Board in accordance with the Risk Management Framework.

FINANCIAL

REPORT

ONGOING REDUCTIONS IN GRANTS ARE PUTTING FINANCIAL PRESSURE ON SHINE SA

Ongoing reductions in grants are putting financial pressure on SHINE SA

The financial results for the year were consistent with budget expectations for 2018, however SHINE SA budgeted for a deficit of \$209,019 due to ongoing pressure brought about from a reduction in grant funding. The actual operating loss for 2018 was \$288,768 compared to a loss of \$245,403 last year. The cash and net asset position remains strong, with a surplus of cash over current liabilities of \$1.35m.

Income has decreased by \$0.56m (8%) over last year to \$7.4m. This reduction is mostly due to the following:

- The “Close the Gap” program being lower than last year by (\$0.35m).
- Rapid Testing, program completed (\$0.26m).
- SA Health, reduction in funding of (\$0.15m).

It is very pleasing to report that Clinic income is up by \$0.22m due to the new Hyde Street Practice. While this service is not covering all of its cost for 2018, this service diversifies income to better position SHINE SA for coming years.

Overall expenditure is reduced from last year by \$0.52m to \$7.7m. This is as a result of the reduction in grant funding received being lower than

last year, which has impacted the expenses. Salary and Wages have fallen by \$0.33m and administration costs have fallen by \$0.11m.

SHINE SA's net asset position remains strong, with net assets of \$5.5m. The Current Ratio (Current Assets over Current Liabilities) is 2.25 (not including the investments), which compares to last year's figure of 2.43 (2017). This means SHINE SA has over two times the short term assets to meet liabilities. The Board agreed benchmark is 1.5.

Non-Current Assets have increased by \$0.22m mostly due to the revaluation of Land and Buildings.

SHINE SA faces financial challenges in the future as many of the grants funds are being indexed by a lower amount than SHINE SA's increases in costs. The 2019 Budget has contained costs and the Board have adopted a balanced budget. SHINE SA has set a course to manage future challenges by pursuing new opportunities, carefully monitoring costs and good governance.

I would like to thank Management and the Finance Team for their support and commend my fellow Directors together with all staff and volunteers for their professionalism.

Glen Brewer BA MBA

Business Improvements

SHINE SA strives to improve the service we provide to customers as well as the support services for our staff and the Board. These business improvements make SHINE SA's work more efficient and improve governance.

Staff training is a focus to ensure staff have the necessary knowledge

to perform their role. Finance systems have been improved and made more efficient with the integration of payroll and the general ledger. The Purchasing Policy has been reviewed and a number of building services have been put to tender, creating cost savings.

Information Technology systems were maintained and improved, with the introduction of video conferencing and the VETenrol online booking system for clients booking training.

Ongoing improvements are planned for the coming year to further enhance SHINE SA services and efficiency.

BOARD'S REPORT

The Board Members present their report on the financial statements of the Association for the year ended 30 June 2018.

The following persons held office as Board Members during the reporting year:

Board Member	Type	Start Date	Current Term Ends
Poppy Matters	Elected*	3-Nov-14	AGM 2018
Julian Roffe	Elected*	23-Apr-12	AGM 2019
Vanessa Swan	Ministerial Appoint	25-Nov-13	23-Oct-18
Matthew Rosenberg	Co-opted	22-Oct-12	AGM 2018
Brigid Coombe	Elected*	21-Jan-13	AGM 2020
Heather Karmel	Co-opted	5-May-14	AGM 2020
Glen Brewer	Co-opted	12-Oct-15	AGM 2018
Sageran Naidoo	Elected*	10-Oct-17	AGM 2018
Rose Alwyn	Co-opted	10-Oct-17	AGM 2020

*includes casual appointment to an elected position

PRINCIPAL ACTIVITIES

To provide programs and support to improve the sexual wellbeing and health of South Australians.

SIGNIFICANT CHANGES

No significant change in the nature of these activities occurred during the year.

OPERATING RESULT

The profit or deficit for the year is disclosed in the Statement of Profit or Loss and Other Comprehensive Income and includes all sources of income for the year. The deficit incurred from ordinary activities for the year ended 30 June 2018 amounted to \$288,768 (2017: deficit \$254,403).

AFTER BALANCE DATE EVENTS

No matters or circumstances have arisen since the end of the financial year, that have significantly affected or may significantly affect:

- (i) the operations of the Association
- (ii) the results of the operation; and
- (iii) the state of affairs of the Association.

BENEFITS RECEIVED

In the opinion of the Board Members of SHINE SA Inc:

- a) During the year ended 30 June 2018 no:

- i) Officer of the Association;
- ii) Firm of which the officer is a member; or
- iii) Body corporate in which the officer has a substantial financial interest.

has received or become entitled to receive a benefit as a result of a contract between the officer, firm or body corporate and the Association; and

- b) During the year ended 30 June 2018 no officer of SHINE SA received directly or indirectly from the Association any payment or other benefit of a pecuniary value.

Signed in accordance with a resolution of the Board Members.

SHINE SA INC

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2018

1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements are special purpose financial statements prepared in order to satisfy the financial reporting requirements of the Australian Charities and Not-for-profits Commission Act 2012 and the Association's Constitution. The Board has determined that the Association is not a reporting entity.

The financial statements have been prepared on an accruals basis and are based on historic costs and do not take into account changing money values or, except where specifically stated, current valuations of non-current assets.

The following significant accounting policies, which are consistent with the previous period unless stated otherwise, have been adopted in the preparation of these financial statements.

(a) Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities on the Assets and Liabilities Statement.

(b) Property, Plant and Equipment

Each class of property, plant and equipment is carried at cost or fair value as indicated less, where applicable, any accumulated depreciation and impairment deficits.

Property

Freehold land and buildings are carried at their fair value (being the amount for which an asset could be exchanged between knowledgeable willing parties in an arm's length transaction), based on periodic, but at least triennial, valuations by external independent valuers, less accumulated depreciation for buildings.

Increases in the carrying amount arising on revaluation of freehold land and buildings are credited to a revaluation surplus in equity. Decreases that offset previous increases of the same asset are recognised against revaluation surplus directly in equity; all other decreases are recognised in profit or deficit.

Any accumulated depreciation at the date of revaluation is eliminated against the gross carrying amount of the asset and the net amount is restated to the revalued amount of the asset.

The Woodville land and buildings is subject to a Deed of Covenant, Charge and Encumbrance between the Minister for Health and SHINE SA (the Deed). The land and buildings are carried at their fair value, based on periodic, but at least triennial, valuations by external independent valuers, less the indexed Minister's capital contribution repayable to the Minister in accordance with the terms of the Deed.

Increases in the carrying amount arising on revaluation of the Woodville land and buildings are credited to a revaluation surplus in equity. Decreases that offset previous increases of the same asset are recognised against revaluation surplus directly in equity; all other decreases are recognised in profit or deficit.

Changes in the indexed Minister's capital contribution are recognised in the Statement of Profit or Loss and Other Comprehensive Income as Occupancy Costs - Woodville.

Plant and equipment

Each class of plant and equipment is carried at cost or fair value less, where applicable, any accumulated depreciation and impairment deficits.

The carrying amount of plant and equipment is reviewed annually by the Members of the Board to ensure that recorded values are not in excess of the recoverable amount of these assets of the Association.

The depreciable amount of all Plant and Equipment capitalised is depreciated on a diminishing value basis over the useful lives of the assets to the Association commencing from the time the asset is held ready for use. The depreciation rates for each class of asset are:

i) Buildings	2.50%
ii) Furniture and Equipment	20%
iii) Telephone System	20%
iv) Motor Vehicles	22.50%

The assets' residual values and useful lives are reviewed and adjusted, if appropriate, at the end of the reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and deficits on disposals are determined by comparing proceeds with the carrying amount. These gains and deficits are included in the Statement of Profit or Loss and Other Comprehensive Income.

8

SHINE SA INC

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2018

1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont)

(c) Revenue

Grant monies are treated as income of the Association in the year in which it is received, except to the extent that the grant is received in advance and is to be expended in future years. These amounts are carried forward as a liability and are disclosed in the financial statements as income received in advance.

Fundraising and donations are recognised as income when they are received.

Interest revenue is recognised on a proportional basis taking into account the interest rates applicable to the financial assets.

Revenue from the provision of goods and services is recognised upon the receipt of cash.

All revenue is stated net of the amount of goods and services tax (GST).

(d) Income Tax

The Board has received endorsement from the Commissioner of Taxation as an income tax exempt charitable entity under Subdivision 50-5 of the Income Tax Assessment Act 1997.

(e) Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Tax Office. In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense. Receivables and payables in the Assets and Liabilities Statement are shown inclusive of GST.

(f) Impairment of Assets

At each reporting date, the Association reviews the carrying values of its tangible and intangible assets to determine whether there is any indication that those assets have been impaired. If such an indication exists, the recoverable amount of the asset, being the higher of the asset's fair value less costs to sell and value in use, is compared to the asset's carrying value. Any excess of the asset's carrying value over its recoverable amount is expensed to the Statement of Profit or Loss and Other Comprehensive Income.

(g) Employee Entitlements

Provision is made for the Association's liability for employee entitlements arising from services rendered by employees to the end of the reporting period.

Annual leave is measured at its nominal value and is determined on the basis of statutory and contractual requirements.

Long Service Leave is provided for in respect of all employees employed with the Association. Long Service Leave entitlements are recognised once an employee reaches four years of service and above. This is a change in accounting policy where in past years Long Service Leave entitlements were recognised at seven years of service. A provision is made for these costs (refer Note 9). The amount of leave entitlements vested at 30 June 2018 are shown as a current liability for the amount over seven years of service and as a non-current liability for those amounts less than seven years.

The contributions made to superannuation funds by the Association are charged as an expense when incurred and payable.

(h) Inventories

Inventories are measured at the lower of cost and net realisable value.

(i) Financial Assets

Investments in financial assets are initially recognised at cost, which includes transaction costs, and are subsequently measured at fair value, which is equivalent to their market bid price at the end of the reporting period. Movements in fair value are recognised through an equity reserve.

(j) Comparatives

Where required by Accounting Standards, comparative figures have been adjusted to conform with changes in presentation for the current financial year.

(k) Critical Accounting Estimates and Judgements

Members of the Board evaluate estimates and judgements incorporated into the financial report based on historical knowledge and best available current information. Estimates assume a reasonable expectation of future events and are based on current trends and economic data, obtained both externally and within the association.

9

SHINE SA INC

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2018

1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont)

(l) Economic Dependency

The Association received 63% (61% 2017) of its income through funding from SA Health. The extent to which the Association will be able to continue the provision of services at current levels is dependent on the continuation of appropriate levels of support from the Department of Health and the achievement of operating surpluses and positive operating cash flows. The most recent funding agreement will expire on 31 December 2018. The Association is currently negotiating the extension of this funding agreement beyond 2018 and doesn't have any indication that this wouldn't be granted.

(m) New Accounting Standards for Application in Future Periods

Accounting Standards issued by the AASB that are not yet mandatorily applicable to the Association, together with an assessment of the potential impact of such pronouncements on the Association when adopted in future periods, are discussed below:

AASB 9: Financial Instruments and associated Amending Standards (applicable to annual reporting periods beginning on or after 1 January 2018).

The Standard will be applicable retrospectively (subject to the provisions on hedge accounting outlined below) and includes revised requirements for the classification and measurement of financial instruments, revised recognition and derecognition requirements for financial instruments, and simplified requirements for hedge accounting. The key changes that may affect the Association on initial application include certain simplifications to the classification of financial assets, simplifications to the accounting of embedded derivatives, upfront accounting for expected credit loss, and the irrevocable election to recognise gains and losses on investments in equity instruments that are not held for trading in other comprehensive income. Although the Board anticipate that the adoption of AASB 9 may have an impact on the Association's financial instruments, it is impracticable at this stage to provide a reasonable estimate of such impact.

AASB 16: Leases (applicable to annual reporting periods beginning on or after 1 January 2019).

When effective, this Standard will replace the current accounting requirements applicable to leases in AASB 117: *Leases* and related Interpretations. AASB 16 introduces a single lessee accounting model that eliminates the requirement for leases to be classified as operating or finance leases.

The main changes introduced by the new Standard are as follows:

- recognition of a right-of-use asset and liability for all leases (excluding short-term leases with less than 12 months of tenure and leases relating to low-value assets);
- depreciation of right-of-use assets in line with AASB 116: *Property, Plant and Equipment* in profit or loss and unwinding of the liability in principal and interest components;
- inclusion of variable lease payments that depend on an index or a rate in the initial measurement of the lease liability using the index or rate at the commencement date;
- application of a practical expedient to permit a lessee to elect not to separate non-lease components and instead account for all components as a lease; and
- inclusion of additional disclosure requirements.

The transitional provisions of AASB 16 allow a lessee to either retrospectively apply the Standard to comparatives in line with AASB 108: *Accounting Policies, Changes in Accounting Estimates and Errors* or recognise the cumulative effect of retrospective application as an adjustment to opening equity on the date of initial application. AASB 9 also introduces a new model for hedge accounting that will allow greater flexibility in the ability to hedge risk, particularly with respect to the hedging of non-financial items. Should the entity elect to change its hedge policies in line with the new hedge accounting requirements of the Standard, the application of such accounting would be largely prospective.

Although the Board anticipate that the adoption of AASB 16 will impact the Association's financial statements, it is impracticable at this stage to provide a reasonable estimate of such impact.

AASB 1058: Income of Not-for-Profit Entities (applicable to annual reporting periods beginning on or after 1 January 2019).

This Standard is applicable to transactions that do not arise from enforceable contracts with customers involving performance obligations. The AASB 1058 are as follows significant accounting requirements of:

- Income arising from an excess of the initial carrying amount of an asset over the related contributions by owners, increases in liabilities, decreases in assets and revenue should be immediately recognised in profit or loss. For this purpose the assets, liabilities and revenue are to be measured in accordance with other applicable Standards;
- Liabilities should be recognised for the excess of the initial carrying amount of a financial asset (received in a transfer to enable the entity to acquire or construct a recognisable non-financial asset that is to be controlled by the entity) over any related amounts recognised in accordance with the applicable Standards. The liabilities must be amortised to profit or loss as income when the entity satisfies its obligations under the transfer.

An entity may elect to recognise volunteer services or a class of volunteer services as an accounting policy choice if the fair value of those services can be measured reliably, whether or not the services would have been purchased if they had not been donated. Recognised volunteer services should be measured at fair value and any excess over the related amounts (such as contributions by owners or revenue) immediately recognised as income in profit or loss.

The transitional provisions of this Standard permit an entity to either: restate the contracts that existed in each prior period presented in accordance with AASB 108 (subject to certain practical expedients); or recognise the cumulative effect of retrospective application to incomplete contracts on the date of initial application. For this purpose, a completed contract is a contract or transaction for which the entity has recognised all of the income in accordance with AASB 1004 Contributions.

Although the Board anticipate that the adoption of AASB 1058 may have an impact on the Association's financial statements, it is impracticable at this stage to provide a reasonable estimate of such impact.

10

SHINE SA INC

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2018

1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont)

(m) New Accounting Standards for Application in Future Periods (cont)

AASB 15: Revenue from Contracts with Customers (applicable to annual reporting periods beginning on or after 1 January 2018, as deferred by AASB 2015-8: *Amendments to Australian Accounting Standards – Effective Date of AASB 15*).

When effective, this Standard will replace the current accounting requirements applicable to revenue with a single, principles-based model. Apart from a limited number of exceptions, including leases, the new revenue model in AASB 15 will apply to all contracts with customers as well as non-monetary exchanges between entities in the same line of business to facilitate sales to customers and potential customers.

The core principle of the Standard is that an entity will recognise revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for the goods or services. To achieve this objective, AASB 15 provides the following five-step process:

- identify the contract(s) with a customer;
- identify the performance obligations in the contract(s);
- determine the transaction price;
- allocate the transaction price to the performance obligations in the contract(s); and
- recognise revenue when (or as) the performance obligations are satisfied.

The transitional provisions of this Standard permit an entity to either: restate the contracts that existed in each prior period presented per AASB 108: *Accounting Policies, Changes in Accounting Estimates and Errors* (subject to certain practical expedients in AASB 15); or recognise the cumulative effect of retrospective application to incomplete contracts on the date of initial application. There are also enhanced disclosure requirements.

Although the Board anticipate that the adoption of AASB 15 may have an impact on the Association's financial statements, it is impracticable at this stage to provide a reasonable estimate of such impact.

SHINE SA INC

DECLARATION BY THE MEMBERS OF THE BOARD

The Board have determined that the Association is not a reporting entity.

The Board have determined that this special purpose financial report should be prepared in accordance with the accounting policies outlined in Note 1 to the financial statements.

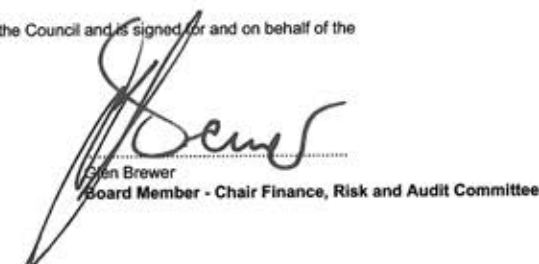

In the opinion of the Board the financial report as set out on pages 3 to 12:

- (a) Gives a true and fair view of the financial position of SHINE SA Inc as at 30 June 2018 and its performance for the financial year ended on that date in accordance with the accounting policies described in Note 1 to the financial statements, the reporting requirements of Division 60 of the Australian Charities and Not-for-profits Commission Act 2012; and
- (b) At the date of this statement, there are reasonable grounds to believe that SHINE SA Inc will be able to pay its debts as and when they become due and payable.

This statement is made in accordance with a resolution of the Council and is signed for and on behalf of the Board by:

 Heather Karmel
 Board Chair

Dated 10 September 2018

 Glen Brewer
 Board Member - Chair Finance, Risk and Audit Committee

**INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF
SEXUAL HEALTH INFORMATION NETWORKING AND EDUCATION SOUTH AUSTRALIA (SHINE SA) INC**

Opinion

We have audited the financial report of Sexual Health information networking and education South Australia (SHine SA) Inc (SHine SA), which comprises the Assets and Liabilities Statement as at 30 June 2018, the Statement of Profit or Loss and Other Comprehensive Income, the Statement of Changes in Equity and the Statement of Cash Flows for the year then ended, Notes to the Financial Statements, including a summary of significant accounting policies, and the Declaration by Members of the Board.

In our opinion the accompanying financial report is in accordance with the *Australian Charities and Not-for-profits Commission Act 2012*; including:

- (i) giving a true and fair view of the SHine SA's financial position as at 30 June 2018 and of its performance for the year ended on that date; and
- (ii) complying with Australian Accounting Standards to the extent described in Note 1 to the financial report and the *Australian Charities and Not-for-profits Commission Regulation 2013*.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of SHine SA in accordance with the ethical requirements of the Accounting Professional and Ethical Standards Board's *APES 110 Code of Ethics for Professional Accountants* (the Code) that are relevant to our audit of the financial report. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter - Basis of Accounting

We draw attention to Note 1 to the financial report, which describes the basis of accounting. The financial report has been prepared for the purpose of fulfilling the Board Member's financial reporting responsibilities under the *Australian Charities and Not-for-profits Commission Act 2012*. As a result, the financial report may not be suitable for another purpose. Our opinion is not modified in respect of this matter.

**INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF
SEXUAL HEALTH INFORMATION NETWORKING AND EDUCATION SOUTH AUSTRALIA (SHINE SA) INC (CONT)**

Other Information

The Board Members are responsible for the other information. The other information comprises the Board's Report for the year ended 30 June 2018, but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Board Members' Responsibility for the Financial Report

The Board Members of SHine SA are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards to the extent described in Note 1 to the financial report and the *Australian Charities and Not-for-profits Commission Act 2012*. This responsibility includes such internal control as the Board Members determine are necessary to enable the preparation of the financial report that gives a true and fair view so that it is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the Board Members are responsible for assessing SHine SA's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board Members either intend to liquidate SHine SA or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

**INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF
SEXUAL HEALTH INFORMATION NETWORKING AND EDUCATION SOUTH AUSTRALIA (SHINE SA) INC (CONT)**

Auditor's Responsibilities for the Audit of the Financial Report (cont)

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of SHine SA's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board Members'.
- Conclude on the appropriateness of the Board Members' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on SHine SA's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause SHine SA to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Board Members regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

ACKNOWLEDGEMENT OF FUNDERS AND PARTNERS

SHINE SA is an independent, not-for-profit organisation. Much of our work is funded by the Government of South Australia, in particular the STI and BBV Section within the Communicable Disease Control Branch of SA Health.

SHINE SA has also received funding and/or grants from the following in the 2017–18 financial year:

- Department for Education and Child Development
- Office of the Chief Psychiatrist, SA Health
- SA Cervix Screening Program, SA Health
- Adelaide Primary Health Network
- MAC AIDS Fund

SHINE SA would like to acknowledge and thank its many key partners in local, state and federal government bodies, health and community organisations, community groups and more that enable us to collaborate and extend the reach and positive impact of the work that we do.
