Celebrating 50 Years of Service in  
Sexual Health and Relationship Wellbeing

**We acknowledge and respect the Kurna people as the traditional custodians of the lands on which SHINE SA is located. During a year which saw many of us work from home we acknowledge that we meet, work and live on the lands of the Kurna, Peramangk and Ngarrindjeri people.**

**SHINE SA acknowledges these ancestral lands and their significance for the traditional owners. We respect their spiritual relationship with their country. We pay our respect to the cultural authority of all Aboriginal people, understanding that their cultural and heritage beliefs are still as important to the living people today.**

# Chair and CEO Report

From left:  
**Heather Karmel FCPA FAICD**  
Chair, SHINE SA Board  
**Natasha Miliotis**  
Chief Executive Officer

In 2020 SHINE SA celebrated 50 years of service in sexual health and relationship wellbeing. This milestone gave us an opportunity to shine a spotlight on the impact the organisation has had over the decades and the ongoing importance of sexual and reproductive health services. Throughout 2020 we celebrated our anniversary with our many supporters, partners and clients, as we connected with the community at a multitude of health promotion events both in person and online.

Over the 2019-2020 financial year we continued to achieve and exceed KPIs with strong partnerships with key stakeholders underpinning the diverse activities of our varied services. With the emergence of the COVID-19 pandemic SHINE SA, along with organisations around the globe, modified operations, reviewed business continuity plans, implemented working from home arrangements, introduced new practices to ensure the safety of staff, clients and community, changed marketing priorities and reassessed financial models.

We proactively adapted and continued to provide services and programs tailored to community and workforce needs in response to the challenges emerging from the global pandemic, with continuation of vital services, often in new and innovative ways, with numerous examples included in this annual report.

Over the 12 months we have achieved impressive results against organisational and contractual key performance indicators, meeting or exceeding almost all targets. Our clinical outcomes include delivering our full range of diverse services, whilst also adjusting service provision during a pandemic, for example, introducing COVID safe practices and telemedicine for many health appointments. Our education and training teams have exceeded all annual targets and also moved training, campaigns and events online over the last quarter of the year. Corporate Services progressed a significant number of major projects including a staff Intranet, ASU Agreement, building and courtyard renovations and policy as well as software upgrades. We have also made progress in systems advocacy, pursuit of new funding to address unmet need or reach additional target groups and we have continued to ensure quality improvements across our organisation.

We thank the Board of Directors for all of their work and support over the year which included a farewell to Rose Alwyn and welcome two new Directors David Cockram and Jessa Rogers. We thank our staff for the impressive results outlined in this Annual Report, a culmination of hard work, time and talents during the most extraordinary of years. Notwithstanding a global pandemic and the social restrictions and resulting changes to service provision, sexual and reproductive health remains of vital importance via health promotion, advocacy, quality education, clinical, counselling and information services. Our 50th year has included celebrating our service to the community over 5 decades, and the positive impact we have had in so many people's lives. We remember and recognise our founders and trail blazers. We acknowledge and thank the staff, volunteers, partners and clients of SHINE SA today. We honour and celebrate each of our 50 years, as we also look to the future and continue to strive for sexual health and relationship wellbeing for all.

# Strategic Plan 2025

## Our Vision

Sexual health  
and relationship  
wellbeing for all

## Our Purpose

To provide a comprehensive approach to sexual, reproductive and relationship health and wellbeing by providing quality education, clinical, counselling and information services to the community.

## Our Strategic Pillars

### Clinical and Counselling Services

**Comprehensive and contemporary sexual, reproductive and relationship health services**

- Provide high quality comprehensive clinical and counselling services
- Ensure best practice in service delivery informed by the best available evidence
- Focus on the needs of priority populations
- Provide high quality clinical training

### Educating and Advocating

**Influencing positive health outcomes and social change**

- Educate teachers so they can improve the sexual health outcomes of young people
- Educate health and other workforces to improve practice and create inclusive services
- Educate families and communities to influence positive outcomes
- Raise awareness, inform and advocate for change

### Working Together

**An excellent organisation to work for and partner with**

- Delivering good governance practices and ensuring staff and partners are treated fairly and respectfully
- Being sustainable and innovative to meet community needs through the best possible services
- Developing and growing partnerships which address our key areas of work including priority populations
- Leveraging off existing specialisation to create new service delivery opportunities

## Our Key Areas of Work

Sexually transmissible infections  
Blood borne viruses  
Gender and sexual diversity  
Sexual health literacy  
Reproductive health  
Contraception

Pregnancy choices  
Child protection  
Positive and respectful relationships  
Positive body image  
Physically and emotionally safer sex

## Our Values

Creative

Genuine

Knowledgeable

Passionate

Respectful

# 50 Years of Service in Sexual Health and Relationship Wellbeing

Fifty years ago on 21 August 1970, the Family Planning Association of South Australia was incorporated. Since this day our work at SHINE SA has expanded to provide a comprehensive approach to sexual, reproductive and relationship health and wellbeing by providing quality education, clinical, counselling and information services to the community.

This year we recognise and remember our founders and trailblazers. We acknowledge and thank the staff, volunteers, partners and clients of SHINE SA today.  
Happy 50th Anniversary SHINE SA!

## Memories of SHINE SA

"From a client between 1997-2018. To then a Sexual Health clinical student 2017-2018. Not only have SHINE SA helped me look after my sexual health, they enabled me to fulfil my dream in becoming a registered sexual health nurse. I will be eternally grateful for the training, support, encouragement and guidance SHINE SA provided to me, so I am now living the dream working as a Sexual Health Nurse."

Jade

"The nurses and GPs are non-judgemental about your past and present sexual health. SHINE SA is the first health care facility where I have felt safe enough to openly discuss my sexual and reproductive health."

Anonymous

"In 2008 I was realising that this so-called minor quirk of mine, being attracted to women, was not actually a thing I could ignore. I was depressed, and struggling to process how I could break away from the identity and future I had built for myself. I turned to SHINE SA's counselling service as it was the only place I could find that identified itself as a safe space for LGBTI+ issues. Whilst it took me a few more years to really be my authentic self, I wish I could tell my counsellor how much she helped me through those messy first steps of acknowledging my feelings. And that the girl who first inspired those feelings is now my wife! Thank you SHINE SA, and Happy Anniversary."

Anonymous

# Year of the Nurse and Midwife

**The work of nurses and midwives has had profound recognition during the COVID-19 pandemic. With health professionals putting their lives at risk during the pandemic both Australia and the world have celebrated their dedication. At SHINE SA nurses and midwives have always held an important place.**

Since our days as Family Planning South Australia, nurses and midwives have held diverse roles from educators to leadership, all of which contributed to who we are today. In 2020 we mark the International Year of the Nurse.

This year celebrate and acknowledge the 546 combined years of nursing and midwifery experience we have at SHINE SA.

Here are some statements from our staff about what they love about being a nurse and/or midwife.

**" I have been a nurse for 20 years (and a midwife for 12 of those). I love connecting with and empowering people especially those moments when I feel like I've made a difference to a person's life. "**

**Pauline**

**" I have loved my journey. Realising my passion for sexual and reproductive health as a midwife and then coming to FPSA/SHINE SA 34 years ago to work as a community sexual health nurse and educator and then moving into leadership. Love the diversity, advocacy, making a difference and all the wonderful clients and colleagues I have worked with over the 49 years. "**

**Annie**

**" What I love about nursing is seeing people move forward with their lives...I aim to enable people to manage their health conditions, so that they can concentrate on living their lives. My clients never fail to impress and inspire me. "**

**Chloe**

**" My favourite part [of working as a nurse] is the diversity of work and the people I meet. "**

**Georgina**

**" I have been registered as a nurse for 11 years, and I love the variety and unpredictability of opportunities, as well as the ability to genuinely help and improve the lives of others. "**

**James**

**" I love the privilege I am given in caring for people when they are in a vulnerable state, and being able to help them to feel safe and cared for. I also love being able to provide them with resources to be able to better care for themselves. "**

**Carina**

SHINE SA Nurses working in the initial surge of the COVID-19 pandemic

# Corporate Services

**The 2020 year has been another busy one for the Corporate Services Team as we strive to provide services that make our organisation a fantastic place to work for and do business with.**

The Corporate Services Team provides major services of; information technology, finance and payroll, human resource management, property management and fleet management. The service provision involves a significant amount of day-to-day transactional work, to maintain systems and keep them operational.

This was a particular challenge in March this year when COVID-19 required as many staff as possible to work from home. Information technology services and finance systems were quickly provided and adapted to deal with this new business requirement. This stretched information technology services and equipment needed, however it's pleasing to report that staff and systems coped with the challenges well. The finance team had an extra challenge setting up systems for the federal government JobKeeper program and preparing files for remote financial audit.

In addition to our day-to-day work, we completed a number of projects during the year to improve services. Some of the highlights include:

- The creation of a new intranet utilising SharePoint to provide easy access to policy and other corporate information.
- The ASU enterprise bargaining agreement was negotiated successfully and put in place seamlessly.

- A 5-year financial plan was developed for the first time in SHINE SA history. This will be further developed in coming years to provide a longer-term view of financial information for planning for SHINE SA's future.

- Renovation work at Hyde Street and Woodville premises was scoped during the year and put out for tender. A successful tender was approved by the Board and renovations commenced in May 2020 on the Woodville building front counter, reception, training, counselling and utilities area. These works are now complete and renovations of the Hyde Street front counter, reception, clinic room and utilities area commenced in August 2020. The works provide improvements to the functionality of the spaces for staff and improved ambience for our customers.

- Long overdue grounds maintenance work has been completed at Woodville. This included renovations to the courtyard area to make it more functional as a space to conduct face to face training programs, using the courtyard as a potential breakout space.

- Information technology and records management policies and frameworks have been updated including the development and implementation of an online training program to ensure all staff are aware of their responsibilities in relation to records, data and cyber security.

- The Work Health Safety, Quality and Risk committee, chaired by the CEO, has been active and has held three meetings over the course of the year. The committee has management and staff representation and is an important committee to oversee safe and quality work.
- SHINE SA has a number of ongoing accreditation requirements and activities, including QIC Health and Community Services Standards; AGPAL; Rainbow Tick Standards and National Standards for Mental Health Services (NSMHS), with steady progress made in quality improvements and preparation for accreditation assessments.

Ongoing improvements are planned for the coming year to further enhance SHINE SA services and efficiency.

# Clinical and Counselling Services

## Clinical Services

Members of the Clinical Services Team

From the SHINE SA archive: Clinical services at SHINE SA, circa 1970s

**SHINE SA has been providing clinical services now for 50 years and during that time has faced many challenges, adapting and pivoting flexibly over the years. This year has been no different.**

The first half of the year saw a consolidation of our clinical services to SHINE SA's Woodville and Hyde Street Practice sites. In February, we were awarded 5 years full accreditation as a site for Advanced Training in Sexual Health Medicine with the Royal Australasian College of Physicians – Australasian Sexual Health Chapter. This is an important achievement and will mean that SHINE SA can be part of the rigorous training process for Sexual Health Physicians in South Australia.

The COVID-19 pandemic surfaced and brought with it numerous changes and adjustments to our clinical services. From March 2020, this has included the introduction of telehealth doctors' appointments, the cessation of Walk-in and Wait clinics, the temporary closure of Woodville clinics (with face-to-face consults resuming at Woodville in June 2020) and significant changes to Hyde Street Practice services.

# 1524

**clients accessed the Sexual Healthline**

Our Hyde Street Practice has responded to the pandemic flexibly with the safety of clients and staff as our top priority. The front door of Hyde Street Practice was closed and all clients screened for COVID-19 symptoms before entering the building and being required to use hand sanitiser. The waiting room was adapted to allow for social distancing. Until we had adequate supplies of Personal Protective Equipment, we limited face-to-face appointments, but these gradually increased. New systems were introduced to support telehealth and a comprehensive guide detailing changes to the operations in the clinics to ensure safety for clients and the clinical team was developed and adapted over time. Our walk-in Rapido – Rapid HIV testing clinic was temporarily closed in March and recommenced at the end of June 2020 on an appointment-only basis. Despite the challenges of these many adjustments to clinical services, some changes will be sustained where they have provided additional flexibility for clients and efficiencies in clinical services.

The Sexual Healthline service continues to provide important information to community members and professionals. During the pandemic the Healthline has provided an additional function as a point for triage to telehealth appointments. This year we've also seen a significant increase in calls on a range of sexual and reproductive health issues from country SA clients.

Clinical training for medical practitioners, including GP Registrars, registered nurses and midwives was temporarily ceased but was reintroduced in June 2020. Clinical training is important in educating health professionals in this specialised field to work in a variety of settings.

SHINE SA's work in the SA Prison Health Services was ceased for several months due to the COVID-19 pandemic but resumed at the Yatala Labour Prison and the Women's Prison in June 2020.

Renovations to the clinic and waiting areas at Hyde Street Practice and Woodville sites this year have added another layer of complexity to clinical operations. Our updated sites will not only provide a more contemporary look but also create a more comfortable environment and increase wheelchair access. These renovations will no doubt be appreciated by our staff and community as we return to the 'new normal'.

# 9616

**clients accessed STI screening services**

## Sexual Health Counselling

**Over 2019–20 our Sexual Health Counsellors Lyn and Zac continued to provide accessible and affordable counselling services to the community from our Woodville and Hyde Street Practice clinics, as well as headspace Onkaparinga and Metro Youth Elizabeth.**

Since March 2020, the team have provided telephone counselling during the COVID-19 pandemic offering counselling and support to clients, colleagues and the wider community. The team continue to contribute to a range of training courses run by the clinical and community education teams. Zac continues to offer Youth Mental Health First Aid training and updates to professionals as part of the Workforce Education and Development team.

Counselling at SHINE SA supports a variety of issues within the area of sexual health and relationship wellbeing. This includes gender/identity/gender transition, penetration disorders (vaginismus) and general sexual health issues.

We also work with clients who have experienced child sexual abuse, sexual assault and harassment. Other presentations include exploring and teaching safer sex and sexual practices, helping clients cope with the impact of sexually transmitted infections, erectile difficulties and sexual confidence. There has been a small number of clients who have presented with addiction to porn and seek support from us to reduce or stop this addiction.

Continuously extending skills and knowledge is essential to SHINE SA providing a quality counselling service. In October 2019, the Counselling team attended the AusPath Conference '*Sorting facts from Fiction in Trans Health Care*' in Fremantle WA. The conference provided an opportunity to meet other professionals in the area of transgender health as well as access to some of the most up-to-date research and programs offered. The team found workshops in the area of mental health particularly valuable. Ultimately the conference provided a great opportunity to upskill in working with transgender and gender diverse clients.

Moving forward from the COVID-19 pandemic, the counselling team is looking forward to providing face-to-face counselling services from new counselling rooms at SHINE SA Woodville, conveniently located near the Library and Resource Centre. Despite being a small team, our counsellors continue to adapt and offer a professional and comprehensive counselling service.

From the SHINE SA archive: Counselling services at SHINE SA, circa 1970s

Gender Wellbeing Service and Gender Connect Country SA staff at the LGBTIQ+ Youth Drop in Extravaganza event for FEAST Festival

## Gender Wellbeing Service

**The Gender Wellbeing Service (GWS) is a free, confidential service and safe space for people who identify as transgender, gender diverse or gender questioning (TGD), funded by the Adelaide Primary Health Network. Our service provides a peer support program, counselling and specialised TGD information and support for people living within the metropolitan area of Adelaide.**

We facilitate a number of community groups, community workshops and community events in partnership with key organisations across the Adelaide metropolitan area. We currently facilitate the *You Space*, *Rainbow Space*, *Trans Femme*, *Queer Gamers* and *Gender Dive* community groups.

In 2019–20, GWS hosted the *LGBTIQ+ Youth Drop In Extravaganza* event as part of FEAST Festival with an attendance of over 80 young people from around South Australia.

We also piloted a 8-week Gender Adventure workshop for newly identifying transgender, gender diverse and gender questioning young people aged 12-17 years.

With the support of a grant from the Department of Human Services, GWS developed and facilitated a *Gender Diverse Lived Experience Leadership* program. The program supported our Peer Volunteers and staff to engage in a range of personal and professional development opportunities. Ultimately the program supported us to further enhance the knowledge, skills, experience and confidence of our staff and volunteers as emerging community leaders. As a result approximately 70% of our volunteers have since gained paid employment within our Gender Connect Country SA service.

LGBTIQ+ Youth Drop in Extravaganza event for FEAST Festival

## Gender Connect Country SA

**Gender Connect Country SA launched in March 2020 as a free information and support telephone service for people that identify as TGD as well as their personal or professional supports. The service is specific to those who are located in regional or rural SA and is funded by Country SA Primary Health Network. All members of our team identify as transgender/gender diverse providing an essential peer-to-peer connection.**

Gender Connect Country SA was established in response to a lack of safe and gender diverse friendly supports and services for those living in Country SA. The service is unique in that it extends support to the personal and professional supports of TGD people. This includes partners, family members, teachers, GPs, nurses as well as other health professionals and youth workers.

Since the launch of our service we have provided an after-hours phone service four evenings a week. We also offer Workforce Training Updates for organisations and professional groups working within Country SA with the aim to increase knowledge around TGD issues and confidence in working with TGD communities. We have provided four workforce updates for 37 professionals working in Country SA including professionals from headspace centres in Whyalla, Victor Harbor, Murray Bridge and from Skylight. These updates have been well received with a 100% satisfactory rating for overall experience from the participants. One participant stated that "The session had great information and was presented really well. It was informative and easy to understand and promoted a space to further conversation."

# Medical, Nursing and Community Education

## Clinical Education

**Our Clinical Education team continues to deliver high quality and comprehensive sexual health education to doctors, nurses and midwives.**

This education has included face-to-face and increasingly, online formats. As a team, we continue to exceed our key performance indicators particularly in the number of professionals accessing training and support. This year Medical Education numbers increased with over 1500 doctors accessing training. This coincides with an increased interest in online education, with many webinars produced in partnership with RACGP. There has been a strong interest in education focusing on STIs (particularly syphilis) in pregnancy and working with Aboriginal clients. More recently, interest has focused on COVID-19 and addressing the sexual health concerns of clients.

We appointed Dr Jess Floreani to the position of Long-Acting Reversible Contraception (LARC) Coordinator. Dr Floreani's role has focused on developing an Intra-Uterine Device (IUD) Insertion Train the Trainer Program and more recently the development of a virtual contraceptive implant insertion and removal training package for rural doctors.

We continue to work with regional and rural health professionals. In 2019-20, we held clinical education sessions in Berri, Port Augusta and Whyalla. We've also developed clinical education podcasts allowing us to reach out to clinicians beyond Adelaide in an accessible format.

Demand for nurse and midwife tailored training focused on STIs (particularly in pregnancy) and emergency contraception. Our Clinical Education Forums have transitioned from face-to-face to a webinar format, which we envisage will continue. The first two online events covered the International Polycystic Ovary Syndrome (PCOS) Guideline 2018 and an update on emergency contraception attracting over 100 live viewers.

Our digital connection with health professionals includes monthly clinical newsletters and quarterly articles for the CRANApplus magazine which is widely circulated to rural and remote areas across Australia. Our published articles have covered unplanned pregnancy and abortion, endometriosis, emergency contraception, self-collected HPV testing and managing contraception during the COVID-19 pandemic. We have had an increased radio presence this year with five media interviews on a wide range of topics of sexual health. Many of these connect with campaigns and events including Schoolies Week, National Condom Day and the COVID-19 response.

We continue to maintain our South Australian IUD Inserters List which has grown in numbers, with a significant increase of inserters in rural and remote South Australia.

Our educators continue to ensure we have up-to-date Fact Sheets for health professionals and the community more broadly. We expanded these resources to include a Fact Sheet on endometriosis and trichomoniasis.

We continue to collaborate with Adelaide Sexual Health Centre (ASHC) and Aboriginal Health Council SA (AHCSA) in the SA Syphilis Outbreak Response Plan, producing three video resources as well as supporting webinars.

Our team has been fantastic in its response to the ongoing pandemic and have adjusted to the sudden development in new skills to facilitate online education and support. During a challenging time, we were able to expand our participant numbers, something we will continue to strive for.

**"Great presentation enabling participation throughout in a COVID safe and comfortable environment."**

**Implanon NXT Training for Registered Nurses and Midwives participant**

Clinical and Community Education Team

Dr Amy Moten, Coordinator: Medical Education presenting at the GP19 conference

Dr Jess Floreani, LARC Coordinator: Medical Education presenting at the GP19 conference

# Community Education and Events

**Community Education plays a key role in increasing the confidence of workers around sexual health and supporting positive sexual health outcomes.**

We have continued to surpass our key performance indicators in delivering education to community and health workers. Attendance at our courses, tailored training sessions and access to online forms of training has exceeded 300 participants.

We were pleased to appoint an additional Community Educator: Aboriginal Male Focus to complement the work of our Aboriginal Educator. Close collaboration with AHCSA led to an increase in the numbers of Aboriginal Health Workers, Aboriginal Maternal Infant Care and Maternity Workers receiving education around STIs and HIV. Work commenced on Aboriginal focused STI fact sheets and a new Foundations of LGBTIQ+ Inclusion (Aboriginal Focus) course. Significant collaborative work occurred with AHCSA on a Syphilis Is Still Out There campaign targeting health workers with an upcoming campaign targeting community members. We worked with Adelaide Sexual Health Centre in providing Syphilis education, which has been a great success. We utilized our Aboriginal Scholarship program to support participants attending the Responding in the Outback event, led by AHCSA.

The Youth Mental Health First Aid course attracted just under 90 participants. The SAMESH team delivered The Foundations of LGBTI Inclusion course and co-presented in the HOW2 Create LGBTI Inclusive Services course. Our partnership with Ralph Brew, Disability Training Consultant facilitated provision of the Rules about Sex course, which supports people living with a disability. Partnership work with Relationships Australia PEACE Multicultural Program included delivering a webinar on Bridging Cultural Barriers for Better Sexual Health Outcomes.

The team continues to produce regular newsletters for the South Australian Aboriginal and Torres Strait Islander workforce as well as the Youth newsletter for young people and those supporting them.

"Content was interesting and there were many facts that I didn't know, would recommend to all who work with youth."

**Youth Mental Health First Aid course participant**

"Excellent presentation. Very insightful and interesting and helped me think about what I would say or do in unexpected circumstances."

**Bridging Cultural Barriers for Better Sexual Health Services webinar participant**

# SAMESH

**SAMESH (South Australian Mobilisation and Empowerment for Sexual Health) is a partnership program between SHINE SA and Thorne Harbour Health (formerly the Victorian AIDS Council). We provide HIV, STI and BBV prevention and support services, especially for gay and other men who have sex with men, as well as other LGBTIQ communities at risk.**

SAMESH has faced challenges in the COVID-19 pandemic landscape, but we continue to deliver a wide range of high quality services that promote the sexual health and wellbeing of the South Australian community.

Among the many activities this year, SAMESH:

- Assisted SA Health and the community at large through Outbreak Activation Response, in particular during the Multiple Drug Resistant Shigella outbreak at the beginning of 2020, the ongoing Syphilis outbreak, and the ongoing COVID-19 pandemic.
- Continued to develop tailored training programs on HIV related issues for sector workers and volunteers.
- Hosted Jack Thompson, International Mr Leather 2019, during his only Australian visit. Jack is an openly HIV positive trans man of colour, as well an advocate and educator. Jack worked with SHINE SA's Gender Wellbeing workers, as well as sitting on the panel of the SAMESH Hypothetical event among his many event appearances.

- Mounted the inaugural Provocateur fetish photography exhibition, a sell-out event with proceeds benefiting the Bobby Goldsmith Foundation. The exhibition featured six international photographers, including work by esteemed artists Chris Ferreria from San Diego, USA and Ivan Polezhaev from Moscow, Russia as well as seven artists from Australia.

- Presented the SAMESH Hypothetical: Loose Talk In Public. The Hypothetical brought together a panel of local and international guests from a variety of backgrounds including community leaders, activists, and media personalities and threw them into a fictional storyline where they tackled big topics affecting our LGBTIQ communities.

- Supported over 20 LGBTIQ community groups including LGBTIQ Christians, Rainbow Crows, TransMasc, Queer Gamers, Adelaide Sharks Rugby Team, Bear Men of Adelaide and Adelaide Leather & Fetish.

- Provided and delivered 250 food parcels to people living with HIV all across metropolitan Adelaide during COVID-19 lockdown. So far 1.3 tonnes of fresh food has been provided to the community.

- Launched the new What Works campaign. This campaign emphasises that there is not one single answer to addressing sexual health and instead encourages community members to find what works for them to monitor their sexual health.

- Gave out 27,000 condoms during 2019-20. Despite COVID-19, this is the largest amount of condoms given out in a year since SAMESH opened. We provide condoms at events and provide them to a sex on premises venue.

- Continued the Rapido – rapid HIV testing clinic, SA's only rapid HIV peer based testing clinic. This year Rapido undertook the highest number of rapid tests in its history.

- Supported the Feast Festival, Adelaide's premier LGBTIQ community arts festival engaging with 4000 people at events.

- Celebrated and commemorated World AIDS Day, International AIDS Memorial Day, and IDAHOBIT (International Day Against Homophobia, Bi and Transphobia). SAMESH gave out 4,200 red ribbons this World AIDS Day.

- Expanded our popular volunteers program. SAMESH currently has an active list of over 150 volunteers who give their time to pack condoms, provide outreach, talk at community activations and assist the promotion and advocacy of sexual health.

# Schools Education and Support

**SHINE SA's Schools Education and Support (SES) team provides a range of services to support schools to implement a comprehensive, whole school approach to relationships and sexual health (R&SH) education. To achieve support for schools we collaborate with the South Australian Department for Education.**

## Relationships and Sexual Health Curriculum

This year we supported 138 secondary schools through the Focus Schools Program. This equates to 86% of the Department for Education schools with a secondary component. We welcomed a new school to this program: Adelaide Botanic High School.

Over 2019-20, 210 educators attended our 2-day R&SH education courses: Teaching It Like It Is. This included 78 participants in our Secondary course, 66 participants in our Primary course, 46 participants in our Inclusive Education course and 20 participants in our Aboriginal course.

**"Energised me again! Especially around new resources."**

**"Many take-aways as a teacher, leader and parent."**

**Curriculum Update Session participants**

There was a further 350 participants in our curriculum update sessions from 45 different schools. Our 2020 curriculum update contained information on each individual school report (feedback from students who completed R&SH lessons in 2019). Other content covered included changes made to the SHINE SA Primary curriculum, campaign materials, new resources and activities and information on further training and support.

During the last quarter, the SES team was pleased to collaborate with Minus 18 to facilitate an online professional development webinar for educators. This webinar attracted 176 participants including staff from the Department of Education.

## Library and Resource Centre

The Library and Resource Centre provides a specialist R&SH service of print-based, electronic and other resources to staff, schools, organisations and the public. The Library is a free, public access service for residents of South Australia.

The Resource Centre provides a selection of teaching resources, available for loan to organisations that have a paid subscription. This year, we loaned 1,874 books and resources. In addition to the Resource Centre, our online store provides a range of free and paid resources. In 2019-20, we distributed 12,364 resources.

## Student Service Talks

Student service talks are presentations to secondary students that highlight SHINE SA services, sexual health statistics, safer sex messages, information on contraception and SHINE SA campaigns. Throughout 2019-20 the SES team held 18 student service talks with over 449 students. We often deliver these talks at the conclusion of a series of R&SH lessons, helping to reinforce classroom learnings and providing an opportunity for students to seek help.

## The Keeping Safe: Child Protection Curriculum

Since 2016, SHINE SA has been the Department for Education's approved training provider of the Keeping Safe: Child Protection Curriculum (KS:CPC) professional learning program. The SES Team facilitated 19 KS:CPC courses (562 participants) from 1 July 2019. At the commencement of 2020, the Department for Education made a decision to transition the program back to use in-house educators however, we continue to work in collaboration.

Wear It Purple Day celebrations

# Communications

**The way we communicate with our communities and clients remains pivotal to our vision of sexual and relationship wellbeing for all. Through our campaigns, resources and promotion we aim to create connections, educate and advocate for our organisational goals and values around sexual and relationship wellbeing.**

Throughout 2019–20 we've invested in paid and organic awareness of our clinical services and education opportunities which has created meaningful connections with new audiences across South Australia. During COVID-19 these connections were more important than ever. It has been important that we address the need to seek sexual health services, despite the pandemic placing barriers to accessing healthcare.

## Digital Communication and Resources

Social media remains central to communicating with a wide range of audiences. The SHINE SA Facebook continues to see a rise in followers and content engagement. Sharing content that is interesting and engaging for our communities of interest in combination with general public health messaging has been received well. Instagram is a relatively new channel for SHINE SA, however it has become an important place to informally connect and share health information with young people. In 2019–20 our Instagram profile impressions reached 298,896.

Our email newsletters continue to be a way for us to provide context-specific information and ongoing professional development and networking to multiple audiences. This includes health professionals, youth and Aboriginal and Torres Strait Islander focused workers, educators and other communities.

Our digital and physical resources play an important role in our workforce and community education services as well general communication. This year we updated and reviewed many digital and physical resources including our regularly updated Fact Sheets in collaboration with our medical educators.

## Website and SASHA

Our website exists as a central hub for the provision of health information, resources and professional development and events. Our most popular website content continues to be our information on our clinics, health information (particularly contraception and STIs) as well as our support for gender and sexual diversity.

Our website is also home to our Online Store which provides access to resources utilised by educators, professionals and more. Our most popular resources include the Contraceptive Kit and Relationship Card Game.

SA Sexual Health Awareness (SASHA) continues to function as SHINE SA's blog for professionals and community members for news and discussion on various aspects of sexual health and sexuality. In 2019–2020 the site had 68,907 visitors.

## Campaigns

In 2019–20, we continued to raise the awareness of STIs and encourage young South Australians to receive a sexual health check through our respective Get A Sexual Health Check and Safer Sex – Use a Condom campaigns. The campaigns have utilised social media advertising as well as traditional outreach through campaign posters and resources available to organisations, community members and schools.

# Research and Publications

**SHINE SA continues to participate in important collaborative research and scholarship.**

Our current research projects include:

- *Stimulants, pleasure and sex between men* with the UNSW Centre for Social Research in Health, NHMRC funded project, 2017–2022. This project is in the completion stage with the dissemination of findings as the main focus. Our current involvement in the project is in membership of the Reference Group and provision of feedback on publications.
- *Reducing health disparities for culturally and linguistically diverse people* with Curtin University, ARC Linkage Project 2017–2021. This is a national project in 5 jurisdictions. SHINE SA is involved in an advisory role and assistance with recruitment for this project.
- *ACCESS* national project with the Burnet and Kirby Institutes to measure and monitor the transmission of Sexually Transmitted Infections (STIs) and blood-borne viruses (BBVs) amongst priority populations. SHINE SA contributes de-identified pathology test results for STIs and BBVs.
- *Step Up* a multi-centre randomised controlled clinical trial with Monash University examining the treatment of male partners of women with bacterial vaginosis to reduce recurrence.
- *SPHERE* based at Monash University. SHINE SA is a member of this national community of practice in sexual and reproductive health which develops consensus statements, advocacy and research.
- The *AusCAPPS Network: A community of practice to support the provision of long acting reversible contraception and medical termination of pregnancy in primary care* an NHMRC Partnership Project 2020-2024. SHINE SA is a partner in this multicenter national project which will facilitate national approaches to inform clinical practice.
- *Writing Themselves in 4, 2020: This is me* is the largest national study series exploring the health and wellbeing of LGBTIQ young people in Australia. SHINE SA has an advisory role and assistance with recruitment for this survey which examines the impact that stigma and discrimination on the health and wellbeing of LGBTIQ+ young people.

We continue to support the research of a PhD Candidate from the University of Adelaide who is undertaking a study *Development of Sexuality and Relationships Education program in South Australia* which examines data from the student and teacher evaluations of the Focus School program over a 10 year period. The candidate has completed a significant analysis of the data which will be published. The SHINE SA Schools Education and Support Team will provide input into focus groups with young people as the next phase of the research.

In the past year, there were 11 publications and conference presentations by SHINE SA staff. It is also important to us that we continue to promote participant recruitment for a range of external research projects that have synergies with our work.

# Financial Report

**Glen Brewer**  
Chair, Finance Audit and Risk  
Committee

SHINE SA's financial result for the 2020 year was a small surplus of \$38,929, compared to the surplus for 2019 of \$51,820. This was a great result given the COVID-19 disruptions to the organisation during the year. The financial results for the year were slightly better than budget expectations.

In 2019, SHINE SA secured five-year funding agreements from SA Health to provide sexual health education, workforce development and clinical services, as well as targeted programs for HIV prevention and people living with HIV. These longer-term funding agreements provided a solid foundation for SHINE SA's current service provision and this funding was not impacted by COVID-19.

Income has remained stable with last year's amounts and is \$7.33m. This result was achieved with the assistance of the Federal Government payment of \$143k in "Cash Boost" and "JobKeeper" grants, as funding support to help businesses during the time of COVID-19.

Grant income accounts for the largest source of funding at \$5.8m. Core Funding from SA Health was reduced from last year (by \$120k), the 2020 year being the first full year of the budget cuts that were applied in December 2019. SHINE SA continues to build on trading income accessing the Medical Benefits Scheme (MBS) for clinical services.

Clinic income was slightly higher than last year, which is a good result given COVID-19 disruption and partly due to being able to access MBS telemedicine billing. Training income has decreased due to the COVID-19

cancellation of "face to face" training courses during the second half of the year. This is expected to return to normal once SHINE SA commences training courses again from August 2020.

Overall expenditure consistent to last year at \$7.3m. Expenditure was well controlled during the year with no significant budget overruns. Salary and Wages are the single largest cost at \$4.8m (66% of total expenditure), reflecting the human service nature of SHINE SA's work.

Much needed renovation work was started at Woodville in June 2020 and will progress to Hyde Street early in the new financial year. This will provide more functional front counters, updated waiting areas for clients and improved consulting spaces at both locations.

SHINE SA's net Asset position remains strong, with net Assets of \$5.4m, including cash and investments at 30 June 2020 of \$3.6m.

SHINE SA has set a prudent budget for 2021, taking into account a potential reduction in income due to anticipated COVID-19 restrictions around client contact and face to face training. These issues will be closely monitored and managed over the coming year.

I would like to thank Management and the Finance Team for their support and commend my fellow Directors together with all staff for their professionalism.

**Glen Brewer**  
Chair, Finance Audit and Risk  
Committee

BOARD’S REPORT

The Board Members present their report on the financial statements of the Company for the year ended 30 June 2020.

The following persons held office as Board Members during the reporting the year:

Board Member	Type	Start Date *	Current Term Ends
Poppy Matters	Appointed	3-Nov-14	13-Feb-22
Julian Roffe	Appointed	23-Apr-12	22-Apr-21
Vanessa Swan	Appointed	25-Nov-13	13-Feb-22
Matthew Rosenberg	Appointed	22-Oct-12	21-Oct-21
Brigid Coombe	Appointed	21-Jan-13	20-Jan-22
Heather Karmel	Appointed	5-May-14	13-Feb-22
Glen Brewer	Appointed	12-Oct-15	13-Feb-22
David Cockram	Appointed	12-Nov-19	11-Nov-22
Jessa Rogers	Appointed	12-Nov-19	11-Nov-22
Rose Alwyn	Appointed	10-Oct-17	** 12-Aug-19

\* Date of the first appointment to the Board of SHINE SA. Includes time served on the Board of the former Association (See Note: Significant Changes).

\*\* Resigned

Directors have been appointed under the Constitution of the Company Limited by Guarantee which became effective on 14 February 2019.

PRINCIPAL ACTIVITIES

To provide programs and support to improve the sexual wellbeing and health of South Australians.

SIGNIFICANT CHANGES

- (i) No significant change in the nature of SHINE SA business activities occurred during the year.
- (ii) During the 2019-20 financial year, SHINE SA was impacted by the global pandemic COVID-19. As result of COVID-19, from March 2020 "face to face" training programmes were suspended, and the organisation operated Clinical Services out of the Hyde St premise only. This had an impact on training revenue and some costs.

OPERATING RESULT

The profit or deficit for the year is disclosed in the Statement of Profit or Loss and Other Comprehensive Income and includes all sources of income for the year. The surplus achieved from ordinary activities for the year ended 30 June 2020 amounted to \$38,929 (2019: surplus \$51,817).

AFTER BALANCE DATE EVENTS

The impact of the Coronavirus (COVID-19) pandemic is ongoing and it is not practicable to estimate the potential impact, positive or negative, after the reporting date. The situation is rapidly developing and is dependent on measures imposed by the Australian Government and any economic stimulus that may be provided. The ongoing impact is being closely assessed by management.

No matters or circumstances have arisen since the end of the financial year, that have significantly affected or may significantly affect:

- (i) the operations of the Company
- (ii) the results of the operation; and
- (iii) the state of affairs of the Company.

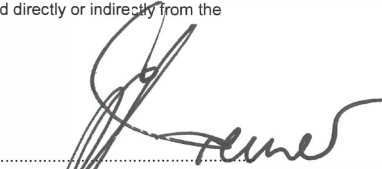

BENEFITS RECEIVED

In the opinion of the Board Members of SHINE SA Inc:

- a) During the year ended 30 June 2020 no:
  - i) Officer of the Company;
  - ii) Firm of which the officer is a member; or
  - iii) Body corporate in which the officer has a substantial financial interest,has received or become entitled to receive a benefit as a result of a contract between the officer, firm or body corporate and the Company; and
- b) During the year ended 30 June 2020 no officer of SHINE SA received directly or indirectly from the Company any payment or other benefit of a pecuniary value.

Signed in accordance with a resolution of the Board Members.

  
Heather Karmel  
Board Chair

  
Glen Brewer  
Board Member - Chair Finance, Risk and Audit Committee

Dated 28 September 2020

SHINE SA LTD

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2020

1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

SHINE SA Ltd, a not-for-profit entity, has prepared special purpose financial statements as, in the opinion of the Board Members, it is unlikely there are users of these financial statements who are not in a position to require the preparation of reports tailored to their information needs. Accordingly, these financial statements have been prepared to satisfy the Board Members' reporting requirements under the Australian Charities and Not-for-profits Commission Act 2012 and the Company's Constitution.

The financial statements have been prepared on an accruals basis and are based on historic costs and do not take into account changing money values or, except where specifically stated, current valuations of non-current assets.

These special purpose financial statements comply with all the recognition and measurement requirements in Australian Accounting Standards, except for the requirements set out in AASB 9 Financial Instruments to recognise the fair value gains or losses on managed funds in profit or loss as these are currently recognised in other comprehensive income.

The following significant accounting policies, which are consistent with the previous period unless stated otherwise, have been adopted in the preparation of these financial statements.

(a) Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities on the Assets and Liabilities Statement.

(b) Property, Plant and Equipment

Each class of property, plant and equipment is carried at cost or fair value as indicated less, where applicable, any accumulated depreciation and impairment deficits.

Property

Freehold land and buildings are carried at their fair value (being the amount for which an asset could be exchanged between knowledgeable willing parties in an arm's length transaction), based on periodic, but at least triennial, valuations by external independent valuers, less accumulated depreciation for buildings.

Increases in the carrying amount arising on revaluation of freehold land and buildings are credited to a revaluation surplus in equity. Decreases that offset previous increases of the same asset are recognised against revaluation surplus directly in equity; all other decreases are recognised in profit or deficit.

Any accumulated depreciation at the date of revaluation is eliminated against the gross carrying amount of the asset and the net amount is restated to the revalued amount of the asset.

The Woodville land and buildings is subject to a Deed of Covenant, Charge and Encumbrance between the Minister for Health and SHINE SA (the Deed). The land and buildings are carried at their fair value, based on periodic, but at least triennial, valuations by external independent valuers, less the indexed Minister's capital contribution repayable to the Minister in accordance with the terms of the Deed.

Increases in the carrying amount arising on revaluation of the Woodville land and buildings are credited to a revaluation surplus in equity. Decreases that offset previous increases of the same asset are recognised against revaluation surplus directly in equity; all other decreases are recognised in profit or deficit.

Changes in the indexed Minister's capital contribution are recognised in the Statement of Profit or Loss and Other Comprehensive Income as Occupancy Costs - Woodville.

Plant and equipment

Each class of plant and equipment is carried at cost or fair value less, where applicable, any accumulated depreciation and impairment deficits. The carrying amount of plant and equipment is reviewed annually by the Members of the Board to ensure that recorded values are not in excess of the recoverable amount of these assets.

The depreciable amount of all Plant and Equipment capitalised is depreciated on a diminishing value basis over the useful lives of the assets to the Company commencing from the time the asset is held ready for use. The depreciation rates for each class of asset are:

i) Buildings	2.50%
ii) Furniture and Equipment	20%
iii) Telephone System	20%
iv) Motor Vehicles	22.50%

The assets' residual values and useful lives are reviewed and adjusted, if appropriate, at the end of the reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and deficits on disposals are determined by comparing proceeds with the carrying amount. These gains and deficits are included in the Statement of Profit or Loss and Other Comprehensive Income.

SHINE SA LTD

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2020

1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont)

(c) Revenue

Revenue from contracts with customers for the provision of goods or services is recognised at an amount that reflects the consideration to which the Company is expected to be entitled in exchange for transferring goods or services to a customer. For each contract with a customer, the company: identifies the contract with a customer; identifies the performance obligations in the contract; determines the transaction price which takes into account estimates of variable consideration and the time value of money; allocates the transaction price to the separate performance obligations on the basis of the relative stand-alone selling price of each distinct good or service to be delivered; and recognises revenue when or as each performance obligation is satisfied in a manner that depicts the transfer to the customer of the goods or services promised.

Grant revenue is recognised when the Company satisfies the performance obligations stated within the funding agreements. If conditions are attached to the grant which must be satisfied before the company is eligible to retain the contribution, the grant will be recognised in the statement of financial position as a liability until those conditions are satisfied.

Fundraising and donations are recognised when they are received.

Interest revenue is recognised as interest accrues using the effective interest method. This is a method of calculating the amortised cost of a financial asset and allocating the interest income over the relevant period using the effective interest rate, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the net carrying amount of the financial asset.

Other revenue is recognised when it is received or when the right to receive payment is established.

The company has elected not to recognise volunteer services as either revenue or other form of contribution received. As such, any related consumption or capitalisation of such resources received is also not recognised.

(d) Income Tax

The Board has received endorsement from the Commissioner of Taxation as an income tax exempt charitable entity under Subdivision 50-5 of the Income Tax Assessment Act 1997.

(e) Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Tax Office. In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense. Receivables and payables in the Assets and Liabilities Statement are shown inclusive of GST.

(f) Impairment of Assets

At each reporting date, the Company reviews the carrying values of its tangible and intangible assets to determine whether there is any indication that those assets have been impaired. If such an indication exists, the recoverable amount of the asset, being the higher of the asset's fair value less costs to sell and value in use, is compared to the asset's carrying value. Any excess of the asset's carrying value over its recoverable amount is expensed to the Statement of Profit or Loss and Other Comprehensive Income.

(g) Employee Entitlements

Provision is made for the Company's liability for employee entitlements arising from services rendered by employees to the end of the reporting period.

Annual leave is measured at its nominal value and is determined on the basis of statutory and contractual requirements.

Long Service Leave is provided for in respect of all employees employed with the Company. Long Service Leave entitlements are recognised once an employee reaches four years of service and above. A provision is made for these costs (refer Note 9). The amount of leave entitlements vested as at the end of the financial year are shown as a current liability for the amount over seven years of service and as a non-current liability for those amounts less than seven years.

The contributions made to superannuation funds by the Company are charged as an expense when incurred and payable.

(h) Inventories

Inventories are measured at the lower of cost and net realisable value.

(i) Financial Assets

Investments in financial assets are initially recognised at cost, which includes transaction costs, and are subsequently measured at fair value, which is equivalent to their market bid price at the end of the reporting period. Movements in fair value are recognised through an equity reserve until the assets are sold and recognised through the profit and loss statement.

## SHINE SA LTD

## NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2020

## 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont)

## (j) Right-of-use Assets

A right-of-use asset is recognised at the commencement date of a lease. The right-of-use asset is measured at cost, which comprises the initial amount of the lease liability, adjusted for, as applicable, any lease payments made at or before the commencement date net of any lease incentives received, any initial direct costs incurred, and, except where included in the cost of inventories, an estimate of costs expected to be incurred for dismantling and removing the underlying asset, and restoring the site or asset.

Right-of-use assets are depreciated on a straight-line basis over the unexpired period of the lease or the estimated useful life of the asset, whichever is the shorter. Where the Company expects to obtain ownership of the leased asset at the end of the lease term, the depreciation is over its estimated useful life. Right-of use assets are subject to impairment or adjusted for any remeasurement of lease liabilities.

## (k) Lease Liabilities

A lease liability is recognised at the commencement date of a lease. The lease liability is initially recognised at the present value of the lease payments to be made over the term of the lease, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Company's incremental borrowing rate. Lease payments comprise of fixed payments less any lease incentives receivable, variable lease payments that depend on an index or a rate, amounts expected to be paid under residual value guarantees, exercise price of a purchase option when the exercise of the option is reasonably certain to occur, and any anticipated termination penalties. The variable lease payments that do not depend on an index or a rate are expensed in the period in which they are incurred.

Lease liabilities are measured at amortised cost using the effective interest method. The carrying amounts are remeasured if there is a change in the following: future lease payments arising from a change in an index or a rate used; residual guarantee; lease term; certainty of a purchase option and termination penalties. When a lease liability is remeasured, an adjustment is made to the corresponding right-of use asset, or to profit or loss if the carrying amount of the right-of-use asset is fully written

## (l) Comparatives

Where required by Accounting Standards, comparative figures have been adjusted to conform with changes in presentation for the current financial year.

## (m) Critical Accounting Estimates and Judgements

Members of the Board evaluate estimates and judgements incorporated into the financial report based on historical knowledge and best available current information. Estimates assume a reasonable expectation of future events and are based on current trends and economic data, obtained both externally and within the Company.

## (n) Economic Dependency

The Company received 64% (63% 2019) of its income through funding from SA Health. The extent to which the Company will be able to continue the provision of services at current levels is dependent on the continuation of appropriate levels of support from the Department of Health and the achievement of operating surpluses and positive operating cash flows. The most recent funding agreement will expire on 30 June 2024.

## (o) New Accounting Standards for Application in Future Periods

Australian Accounting Standards and Interpretations that have recently been issued or amended but are not yet mandatory, have not been early adopted by the Company for the annual reporting period ended 30 June 2020.

13 EVENTS OCCURRING AFTER BALANCE DATE

There has been no significant events which have occurred subsequent to 30 June 2020.

14 RELATED PARTY DISCLOSURES

The names of the persons who were Board Members of SHINE SA Ltd at any time during the financial year were as follows:

Heather Karmel  
Julian Roffe  
Glen Brewer  
Brigid Coombe  
Vanessa Swan  
Matthew Rosenberg  
Poppy Mattiers  
Rose Alwyn  
David Cockram  
Jessa Rogers

15 REMUNERATION OF MANAGEMENT COMMITTEE MEMBERS

No amounts were received or are due and receivable by the Board Members of SHINE SA Ltd during the year ended 30 June 2020.

16 CONTINGENT LIABILITIES

The Company has no known contingent liabilities as at 30 June 2020.

17 EXPENDITURE COMMITMENTS

Capital Commitments

The Company has entered into a contract for building renovations at Woodville and Hyde St premises. As at 30 June 2020 the works at Woodville were near completion. The Hyde St works have commenced in August 2020. These works have been budgeted and planned and will not impact the Company's solvent financial position.

SHINE SA LTD

DECLARATION BY THE MEMBERS OF THE BOARD

The Board have determined that the Company is not a reporting entity.

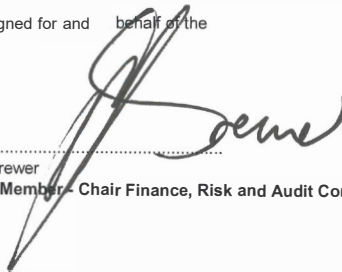

The Board have determined that this special purpose financial report should be prepared in accordance with the accounting policies outlined in Note 1 to the financial statements.

In the opinion of the Board the financial report as set out on pages 3 to 13:

- (a) Gives a true and fair view of the financial position of SHINE SA Ltd as at 30 June 2020 and its performance for the financial year ended on that date in accordance with the accounting policies described in Note 1 to the financial statements, the reporting requirements of Division 60 of the Australian Charities and Not-for-profits Commission Act 2012; and
- (b) At the date of this statement, there are reasonable grounds to believe that SHINE SA Ltd will be able to pay its debts as and when they become due and payable.

This statement is made in accordance with a resolution of the Board and is signed for and on behalf of the Board by:

  
Heather Karmel  
Board Chair

  
Glen Brewer  
Board Member - Chair Finance, Risk and Audit Committee

Dated 28 September 2020

## INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF SEXUAL HEALTH INFORMATION NETWORKING AND EDUCATION SOUTH AUSTRALIA LTD

### Opinion

We have audited the financial report of Sexual Health Information Networking and Education South Australia Ltd (SHINE SA), which comprises the Assets and Liabilities Statement as at 30 June 2020, the Statement of Profit or Loss and Other Comprehensive Income, the Statement of Changes in Equity and the Statement of Cash Flows for the year then ended, Notes to and forming part of the Financial Statements, including a summary of significant accounting policies, and the Declaration by Members of the Board.

In our opinion the accompanying financial report is in accordance with the *Australian Charities and Not-for-profits Commission Act 2012*; including:

- (i) giving a true and fair view of the SHINE SA's financial position as at 30 June 2020 and of its performance for the year ended on that date; and
- (ii) complying with Australian Accounting Standards to the extent described in Note 1 to the financial report and the *Australian Charities and Not-for-profits Commission Regulation 2013*.

### Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the SHINE SA in accordance with the independence requirements of the Accounting Professional and Ethical Standards Board's *APES 110 Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the financial report. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Emphasis of Matter - Basis of Accounting

We draw attention to Note 1 to the financial report, which describes the basis of accounting. The financial report has been prepared for the purpose of fulfilling the Board Members' financial reporting responsibilities under the *Australian Charities and Not-for-profits Commission Act 2012*. As a result, the financial report may not be suitable for another purpose. Our opinion is not modified in respect of this matter.

### Other Information

The Board Members are responsible for the other information. The other information comprises the Board's Report for the year ended 30 June 2020, but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

## INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF SEXUAL HEALTH INFORMATION NETWORKING AND EDUCATION SOUTH AUSTRALIA LTD (CONT)

### Other Information (cont)

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### Board Members' Responsibility for the Financial Report

The Board Members of SHINE SA are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards – Reduced Disclosure Requirements and the *Australian Charities and Not-for-profits Commission Act 2012*. This responsibility includes such internal control as the Board Members determine is necessary to enable the preparation of the financial report that gives a true and fair view so that it is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the Board Members are responsible for assessing SHINE SA's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board Members either intend to liquidate SHINE SA or to cease operations, or have no realistic alternative but to do so.

### Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of SHINE SA's internal control.

**INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF  
SEXUAL HEALTH INFORMATION NETWORKING AND EDUCATION SOUTH AUSTRALIA LTD  
(CONT)**

**Auditor's Responsibilities for the Audit of the Financial Report (cont)**

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board Members.
- Conclude on the appropriateness of the Board Members' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on SHINE SA's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause SHINE SA to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Board Members regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
