Registering as a SHINE SA client

When you access SHINE SA's services for clinic services, counselling, community programs or professional education you will be asked to fill in a registration form.

The information you provide to us is voluntary.

Your details are entered into a computer system. Information about you **will not** be shared with other agencies unless we are required by law to do so; believe that the disclosure is reasonably necessary to prevent a serious threat to the safety or wellbeing of an individual; or unless you give us permission to do so. Unless those safety concerns prevent this, you will be involved in the decision to release information about you.

The person who is registering your details will discuss this with you. All workers are bound by strict confidentiality rules. The reasons why you visit our agency and the services we provide to you are only available to workers at SHINE SA.

We need to record information about you to assist us in providing high quality health services. Please be assured that only relevant information is recorded.

If you have any concerns for your safety or privacy, there are options available to hide your name, address and phone number. Please let a SHINE SA worker know if this is the case.

Clinic and counselling clients

If you see more than one of our health workers on a one-to-one basis, please be aware that all of them will use the same client file. Only workers directly involved with your health care can access your file. This includes services provided by private practitioners at any SHINE SA site.

Course and program clients

Only workers directly involved with the course or program can access your file. Your registration form is stored securely and is part of the complete course information record which is kept permanently at State Records. These records cannot be publicly accessed for 100 years.

How is your personal information managed?

We will not share your information unless you have given consent for this to happen; there is a legal obligation to do so; or we believe that the disclosure is reasonably necessary to prevent a serious threat to the safety or wellbeing of an individual.

To assist in the improvement of our service, reviews are conducted regularly. Some reviews assess staff recording practices and your filed information may be looked at for this purpose. Reviews do not focus on personal information and your personal information will remain confidential.

You may access your client file or course registration information either informally, through discussion with your SHINE SA worker, or formally, through the *Freedom of Information Act 1991*. You are entitled to ask that any misleading or incorrect information be corrected.

At the time of registration with SHINE SA you will be informed of the limitations that apply to the use of your information and you will have the opportunity to formally consent to this requirement. Please speak to your SHINE SA worker if you have any questions or concerns.

Limitations to confidentiality

SHINE SA is bound by the *Privacy Amendment (Enhancing Privacy Protection) Act 2012*. We are legally required to share personal information if we believe in doing so it will protect the safety and wellbeing of children, young people and adults. SHINE SA may feel it necessary to give this information to another agency (e.g. SAPOL, Mental Health Services). This is a Duty of Care issue rather

than a legal issue and acknowledges SHINE SA's responsibilities in accordance with the SA Government's Information Sharing Guidelines. If a disclosure of information does occur, we would endeavour to inform you and to work with you through this process, unless it is deemed unsafe to do so.

SHINE SA is also subject to other legal requirements including the *Children's Protection Act 1993*. Under this legislation, SHINE SA practitioners are mandated to report situations of child abuse or neglect, for example:

- A young person, 17 years of age, who is having sex with someone who is 13.
- A young person who tells the clinician they are being abused by a family member.
